XBR-2 Battery Powered Bluetooth Audio Receiver With USB-C

THANK YOU FOR CHOOSING POLSEN.

The Polsen XBR-2 battery-powered Bluetoath receiver streams audio wirelessly from a Bluetooth device to a mixer, powered speaker, or PA system from up to 100 feet away. When it's plugged into aline-level XLR input, the device will stream your audio for recording and playback. Setup and pairing to a smartphone, tablet, or computer is simple, and you'll be streaming audio in seconds.

Link two XBR-2s for wireless stereo playback. With a batterylife of 10 hours, this receiver can stream enlire interviews, concerts, and mavie soundtracks to an audience or recorder.

PRECAUTIONS A

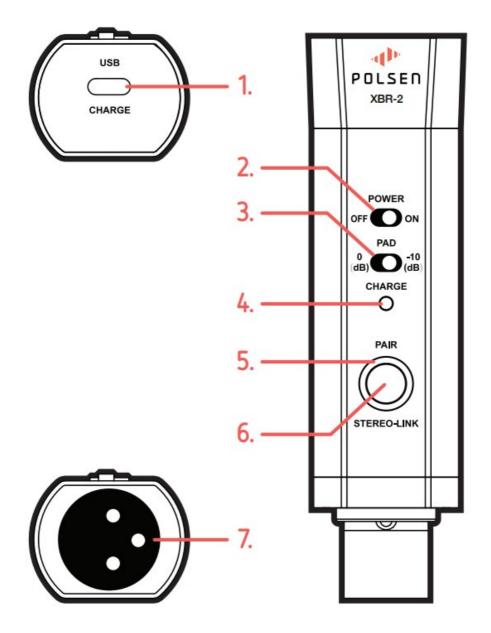

- Please read and follow these instructions, and keep this manual in a safe place.
- Do not attempt to disassemble or repair the equipment—doing so will void the warranty, and Polsen will not be responsible for any damage.
- Make sure that this product is intact and that there are no missing parts.
- Keep this unit away from water and any flammable gases or liquids.
- Clean the unit with only a soft, dry cloth. only.
- · All images are for illustrative purposes

OVERVIEW

- 1. USB charging port
- 2. Power switch
- 3. -10dB pad

- 4. Charging indicator
 - On: Battery charging
 - Off: Battery fully charged
- 5. LED pairing indicator
- 6. Stereo link button
- 7. XLR male output connector

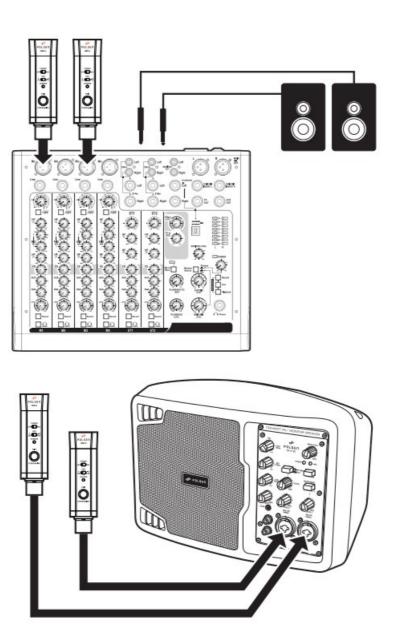

CHARGING THE RECEIVER

Use the included USB cable to connect the XBR-2 to a powered computer port or USB charger (not included) The charging indicator will turn on when the unit is charging, and turn off when it's fully charged.

Make sure the XBR-2 is powered off while making these connections.

Insert the XBR-2 into any device with an XLR line-level input, such as a mixer, powered speaker, amplifier, or PA. Connecting a single XBR-2 will combine the audio source's two channels and output them to a single channel

BLUETOOTH PAIRING A SINGLE XBR-2

- 1. Power on your Bluetooth device and make sure Bluetooth is turned on.
- 2. Turn on the XBR-2. The pairing indicator will alternate flashing red and blue
- 3. Go to your Bluetoath settings and select the XBR-2 in the devices list

When the XBR-2is paired with your device, the pairing indicator will slowly flash blue. Begin playing audio on your device. The pairing indicator will glow a constant blue.

-10 dB Pad

The pad switch should normally be on 0 dB.

If the audio is peaking your meters or distorting your audio; select -10 dB to attenuate the audio signal by 10 dB.

BLUETOOTH PAIRING TWO XBR-2 RECEIVERS FOR STEREO PLAYBACK

For stereo playback, connect two XBR-2s to two line-level input channels of your mixer, amplifier, or PA

- 1. Follow the instructions above to pair the first XBR-2 to your Bluetooth device.
- 2. Once it's paired and displays a slowly flashing blue light, power on the second XBR-2.
- 3. Press and hold the stereo link buttons on both XBR-2s for two seconds, and release. The second XBR-2 will search for the first.

Once it's paired, the second XBR-2's pair indicator wil rapidly flash red and blue. The first XBR-2's pair indicator will continue to slowly flash blue.
