## Declaration of Conformity/FCC Regulatory Information

95060 USA (800) 544-4660 declare under our sole responsibility that the products CA22CD, CA22CDSY & CA22CDDY comply with Part 15 of the FCC Rules. 501163981242

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on another circuit.
4. Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

### Exposure to RF Radiation

The internal wireless radio operates within the guidelines found in radio frequency safety standards and recommendations, which reflect the consensus of the scientific community. Independent studies have shown that the internal wireless radio is safe for use by consumers. Visit [plantronics.com](http://plantronics.com) for more information. In order to comply with FCC and IC RF Exposure requirements, the base must be installed and operated such that a minimum separation distance of 20 cm is maintained between the base and all persons during normal operation.

**NOTE:** Modifications not expressly approved by Plantronics, Inc. could void the user's authority to operate the equipment.

### Australia/New Zealand

Adjust headset microphone volume (softphone) Place a test softphone call and adjust softphone volume and PC sound volume accordingly.

### Canada

CAN ICES-3 (B)/NMB-3(B) ISED Canada Regulatory Information This device complies with ISED licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

### Europe

Specific Absorption Rate (SAR/DAS) DAS/SAR < 0,3 W/Kg. en In accordance with France Specific Absorption Rate disclosure, this product SAR is: DAS/SAR < 0.3 W/Kg. A crossed-out wheellie bin symbol denotes that waste electrical and electronic equipment and batteries must not be disposed of as unsorted municipal waste, but collected separately.
