Maintenance Instructions

When cleaning phones with keypads or phone accessories, be careful to not let any of the disinfecting solution seep into the phone or accessory.

- 1. Unplug all cables from the phone and accessories.
- 2. Dip a cotton ball into a medicinal isopropyl alcohol and water solution of 70:30, making sure to squeeze out any excess liquid.
- 3. Wipe all hardware surfaces and be careful not to wipe ports or cable connections.
- 4. Dip a cotton swab into the alcohol/water solution and clean around the buttons.
- 5. Let the phone and accessories air-dry completely before reconnecting any cables.

Troubleshooting

Search for product information and answers in the Product Documentation at https://docs.poly.com. Find troubleshooting information in the Knowledge Base at https://docs.poly.com. Contact Technical Support at https://www.hp.com/us-en/contact-hp/contact.html.

Recycling Poly Products

Poly offers free recycling of its branded products to users. Detailed information is available at https://hp.com/recycle.

Storage and Transportation

Should you need to store the product for a long period of time, you may switch off the mains power supply. Note: Removing power from the product makes it inaccessible remotely for software updates, diagnosis and management.

Period of storage: 7 years under appropriate storage conditions

Storage and transportation temperature: -25°C to 70°C (-13°F to 158°F)

Relative humidity (non-condensing): 5% to 95%

Manufacturing

Find the date of manufacture on the outer packaging of the product in the following format: YYYYMMDD.

Product Serial Number

The product serial number is included on the serial number label in the following format: 12 alphanumeric characters.

Safety and Regulatory

See the enclosed printed Safety Insert, and refer to the Poly Rove Safety and Regulatory Guide on hp.support.com/poly for all regulatory and safety guidance prior to setup and configuration.
