Includes: 1 Pop It! Game Board

A Game for POP Stars

Goal

Be the player to force your opponent to POP the last bubble.

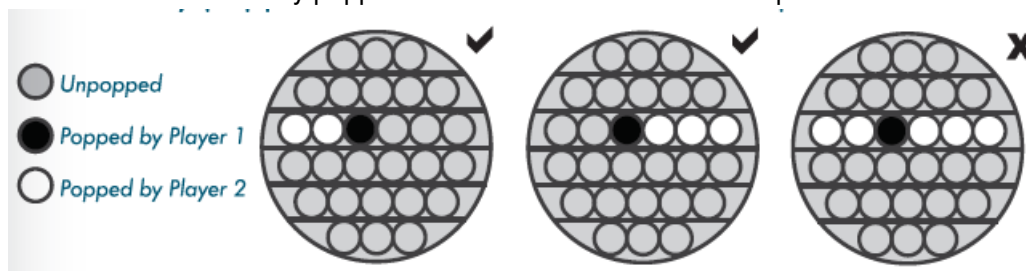

How to Play

1. Rock, paper, and scissors to see who goes first.
2. Players will take turns choosing one row and POP as many bubbles as they want (in that row only).
3. The next player will choose any one row that has any unpopped bubbles and POP as many as they want in that row only.
4. Players will continue taking turns until one player is forced to POP the last bubble. That player loses that round, but don't worry! Flip the board and start over. The first player to win three rounds is the winner.

More Ways to Play!

In the advanced version, game play is the same except the players can only POP bubbles in a row that are directly next to each other without any popped bubbles in between. For example:
