IMPORTANT SAFETY INSTRUCTIONS

When used in a directed manner, this unit has been designed and manufactured to ensure your personal safety. However, improper use can result in potential electrical I shock or fire hazards. Please read all safety and operating instructions carefully before installation and use, and keep these instructions handy for future reference. Take special note of all warnings listed in these instructions and on the unit.

1. Water and Moisture -The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.
2. Ventilation -The unit should be situated so that its location or position does not interfere with its proper ventilation. For example, it should not be situated on a bed, sofa, rug or similar surface that may block ventilation openings. Also, it should not be placed in a built-in installation, such as a bookcase or cabinet, which may impede the flow of air through the ventilation openings.
3. Heat-The unit should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
4. Power Sources-The unit should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.
5. Cleaning -The unit should be cleaned only using a warm damp cloth. Do not use solvents, etc.
6. Objects and Liquid Entry-Care should be taken so that objects do not fall and liquids are not spilled into any openings or vents located on the product.
7. Attachments -Do not use attachments not recommended by the product manufacturer.
8. Overloading-Do not overload wall sockets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
9. Periods of Nonuse-If the unit is to be left unused for an extended period of time, such as a month or longer, the battery should be remove from the unit to prevent damage or corrosion.
10. Servicing -The user should not attempt to service the unit beyond those methods described in the user's operating instructions. Service methods not covered in the operating instructions should be referred to qualified service personnel.

PRODUCT SPECIFICATION

Mouse Specifications

Frequency	: 2402.85MHz - 2480.85MHz
Resolution	: 1500DPI
Rate of Return	: 250Hz
Channel	: 16
Distance	: 30m
Voltage	: 1.5V
Working Current	: 11mA
Standby Current	: 1.3mA
Mouse Key Life	: Above 3 Millions
Mouse Size	: 113 X 64 X 32mm

Keyboard Specifications

Frequency	: 2402.85MHz - 2480.85MHz
Channel	: 16
Distance	: 15m
Voltage	: 1.5V
Working Current	: 1.5mA
Standby Current	: 6uA
Keyboard Key Life	: Above 10 Millions
Keyborad Size	: 289 X 140 X 26.5mm
