POTTER PRTI-1 Remote Trouble Indicator

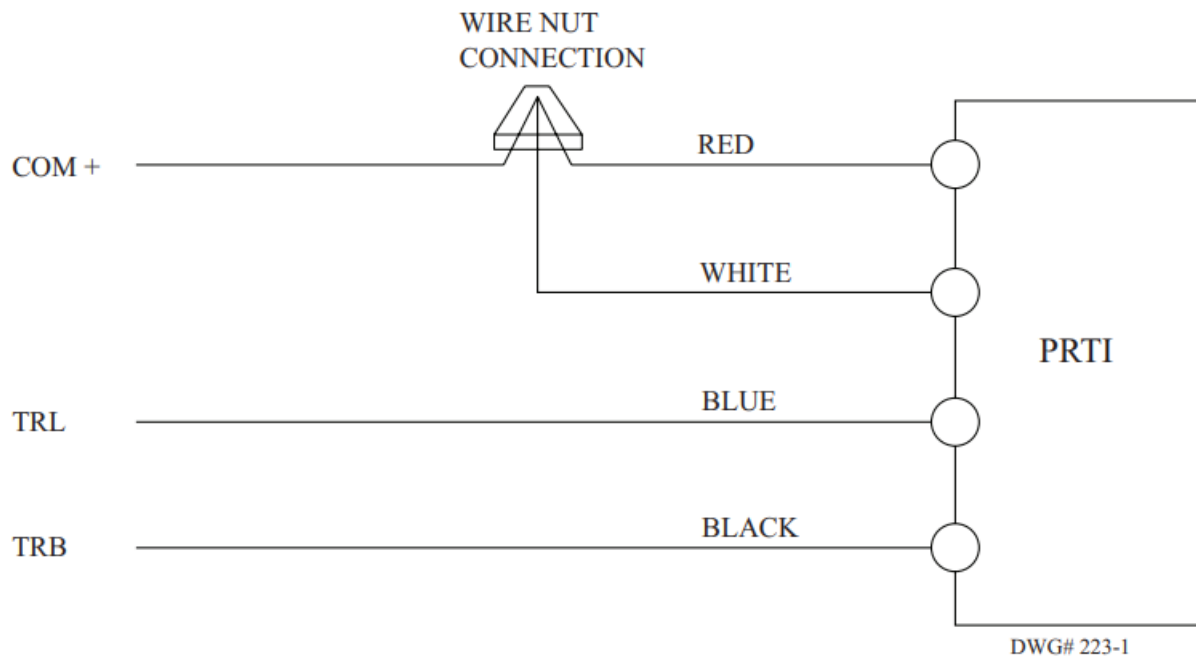

Specification

- UL Listed: For use with PFC-3000, PFC-5000, and PFC-9000 series FACP.
- Dimensions: 2 7/8" x 4 5/8" x 1 1/4"
- Mounting: Mounts on a single gang box

Description

The PRTI is a UL listed indicator of trouble condition with Potter PFC-3000, 5000, and 9000 series fire alarm control panels. When a trouble condition occurs, the PRTI will sound the piezo and illuminate the amber LED. When the trouble is restored, the PRTI returns to a standby state automatically.
