## Power Your Fun 8315A Remote Control Robot Puppy Toy

**Launch Date:** October 13, 2018

**Price:** \$39.99

### Introduction

Toys like the Power Your Fun 8315A Remote Control Robot Puppy Toy are engaging and look like real puppies. They are made to give kids hours of fun. This cute toy moves like a real animal; it can walk, bark, wag its tail, and do tricks, making the experience fun and interactive. The puppy can be controlled by a simple remote, and it reacts to voice commands and hand movements, making it feel like a real pet. Programming the puppy to do different things is another way for kids to learn STEM skills. Because it is made of long-lasting, non-toxic materials and runs on batteries, the Power Your Fun 8315A is great for kids who want a fun, interactive friend but don't want the duty of a real pet.

### Specifications

- **Model Number:** 8315A
- **Type:** Remote Control Robot Puppy Toy
- **Age Group:** Recommended for children aged 3 and up
- **Dimensions:** Approximately 7.5 inches (height) x 10 inches (length)
- **Weight:** 1 lb
- **Battery Requirements:**

- **Puppy Toy:** Requires 3 x AA batteries (not included)
- **Remote Control:** Requires 2 x AA batteries (not included)
- **Material:** Plastic and soft-touch components for safety and durability
- **Movement Features:** Walking, tail wagging, barking, head tilting
- **Sound Effects:** Realistic puppy barks and playful sounds
- **Color Options:** Available in various colors (check product listings)
- **Remote Control Range:** Up to 10 meters (33 feet)

## Package Includes

- Robo Pet Dog
- 1 x 3.7V 350mAh Li-Ion Rechargeable RC Toy Battery
- Remote Transmitter (Requires 2 AAA batteries – Not Included)
- 6 Program Treat Keys
- Treat Dish
- USB Charging Cable

## Features

1. **Moving realistically:** The Power of Your Fun The 8315A robot puppy walks, wags its tail, and tilts its head

back like a live puppy. These actions make it feel like a real pet by letting you connect with it a lot. The puppy can move both forward and backward, which makes playing more fun and interesting.

2. **Sound Effects:** The realistic barking and fun puppy sounds that come with this robot puppy make it look even more real. The sound effects make it seem like you have a real puppy at home, which makes the experience better for kids overall.
3. **Using the Remote Control:** The Power Your Fun 8315A is controlled by a remote control that is simple to use. The puppy can walk, bark, wag its tail, and do other things that the kids can control. Young people are meant to use the simple remote control system, which makes engagement fun and easy.

4. **Safe and Durable Materials:** The Power Your Fun 8315A is made of high-quality, non-toxic plastic, so it is safe for kids to play with and will last for hours of involved play. Regular use of the toy is meant to make it fun for a long time.
5. **Battery-Powered:** The Power Your Fun 8315A runs on AA batteries, which are not included. This makes it easy to use since you don't have to deal with charging docks or cords. This battery-powered function lets kids play without interruption and is very useful.
6. **Interactive Play:** The Power Your Fun 8315A comes with a remote control that lets kids talk to their robot dog. Kids can have fun and learn how to control the toy while improving their fine motor skills by doing tricks with the puppy and telling it what to do.
7. **Compact and Lightweight:** The Power Your Fun 8315A is small and light so it's easy to carry and play with anywhere. Because of this, it's great for kids. Because it's small, it's also easy to put away when not in use.
8. **Adorable Remote Control Robot Dog:** The Power Your Fun 8315A is a cute robot puppy that can walk around the room, dance to music, bark, sit, and stand. It's a great way for kids to play and connect.

9. **Interactive Dog Play Modes:** The toy has several play modes, such as Gesture Mode, where kids move their hands to control the puppy, and Adventure Mode, where the robot puppy moves around a room by itself, avoiding hazards. This gives young people fun ways to play.
10. **STEM Learning:** How to Make Fun of It The 8315A teaches kids the basics of programming. Kids can teach the puppy a series of moves using the software treats that come with it. STEM (Science, Technology, Engineering, and Math) skills are boosted by this hands-on learning activity.
11. **Smart Play Modes:** The toy has three smart play modes, which are shown by a different color LED eye:
  - **Blue Eyes (Remote/Gesture Mode):** You can move your hands and talk to the puppy with the remote. The puppy in Red Eyes (Adventure Mode) can avoid things and move around on its own.
  - **Purple Eyes (Treat Mode):** The robot puppy can do pre-programmed moves that help kids develop their logic and imagination.
12. **Trick Training:** You can teach the Power Your Fun 8315A to do fun tricks. For instance, if you press a button while the puppy is standing on its back legs, it will twirl around in place. This makes kids happy and gives them more ways to play.
13. **Functionality of the Remote Control:** The paw print-shaped remote that comes with the robot puppy lets kids move it in different ways, like walking, turning, sitting, and even dancing. With this easy-to-use remote, kids can play with the toy and move it around as they please.
14. With its cute LED eyes, realistic barking, and other pet-like sounds, the Power Your Fun 8315A robot puppy is the perfect toy for kids to play with. It's like having a pet that you can connect with without having to take care of a real dog.
15. **Durable and Reliable Fun:** The Power Your Fun 8315A is made to last, and a 1.5-hour charge gives you about 40 minutes of nonstop playing. With its sturdy build and fun features, it looks like it will be a reliable source of entertainment for kids for hours.

## Usage

### Battery Installation:

- Insert 3 AA batteries into the **Power Your Fun 8315A** puppy toy and 2 AA batteries into the remote control.
- Ensure the battery compartments are securely closed.

### Powering On:

- Turn on the power switch on the underside of the puppy and the remote control.
- Use the remote to control the puppy's movement, sounds, and actions.

### Remote Control Functions:

- Use the buttons on the remote to make the puppy walk forward, backward, or change direction.
- Press the button to make the puppy bark and wag its tail.

### Interactive Play:

- Engage your child with the remote by having them control the robot puppy to perform fun movements, such as

walking or performing tricks.

## Care and Maintenance

### Cleaning:

- Wipe the exterior of the **Power Your Fun 8315A** with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that may damage the toy's surface.
- Similarly clean the remote control, ensuring that no moisture enters the battery compartments.

### Battery Maintenance:

- Remove batteries when the toy is not in use for an extended period to prevent leakage and damage.
- Always use fresh, non-rechargeable batteries of the correct size (3 AA for the puppy, 2 AA for the remote control).

### Storage:

- Store the **Power Your Fun 8315A** in a cool, dry place when not in use.
- Keep the remote control and puppy toy away from extreme temperatures or humidity to maintain their longevity.

### Inspection:

- Regularly check the toy for any loose parts or damage. Tighten any screws if necessary and replace any broken or worn-out components.

## Troubleshooting:

### The robot puppy won't move.

- **Solution:** Check the battery levels of both the puppy and the remote control. Ensure the batteries are inserted correctly. Replace batteries if they are low.

### The puppy makes no sound.

- **Solution:** Ensure the sound settings are activated, and check the volume (if applicable). Replace the batteries if the sound is faint or non-existent.

### The remote control isn't working.

- **Solution:** Verify that the remote control batteries are correctly installed and functioning. If the remote still doesn't work, try replacing the batteries.

### The puppy isn't responding to the remote.

- **Solution:** Ensure the remote and the puppy are both powered on and within range. Reset the remote control and puppy by turning them off and on again.

**The puppy’s movements are slow or jerky.**

- **Solution:** Check the battery charge and replace them if necessary. Ensure that the toy’s moving parts are not obstructed.

**Pros and Cons**

Pros	Cons
Engaging interactive features	Battery life may be shorter than expected
Promotes STEM learning	Requires adult supervision for younger children
Durable construction	Limited range of remote control

**Warranty**

The Power Your Fun Robot Puppy Toy comes with a standard warranty covering manufacturing defects for one year from the date of purchase. Please retain your receipt for warranty claims.

**FAQs**

What is the Power Your Fun 8315A Remote Control Robot Puppy Toy?

The Power Your Fun 8315A is an interactive robotic puppy that walks, barks, and performs various tricks, controlled through a simple remote control for a fun, lifelike experience.

How does the Power Your Fun 8315A robot puppy move?

The Power Your Fun 8315A moves by walking forward and backward, with additional actions like tail wagging and head tilting to enhance its realism.
