WHAT'S IN THE BOX

- Walk and Flips Puppy
- Battery
- Manual

FEATURES

- Children will enjoy interactive play with the puppy because it can walk, bark, sit, and do back somersaults.
- **Versatile Performance:** Made to do tricks on different surfaces, so you can play inside without any problems.
- **Synthetic Materials:** These are made from nontoxic and synthetic materials that keep kids safe and comfortable.
- **Battery Operated:** It runs on two AA 1.5V batteries, which are not included but are easy to swap out when they die.
- **Charming Look:** The puppy's cute and fluffy look makes it a nice addition to any area.
- **Pet Companion:** Gives you the joy of having a pet without the care that comes with a real one. Great for kids who can't have pets.
- **Durable Construction:** Made from strong materials so it will last for a long time, even after rough play.
- **Safe for Young Children:** It's safe for kids ages 3 and up and was made that way to keep them from getting hurt.
- It only weighs 10.86 ounces, which makes it easy for kids to carry around and play with.
- **Small Size:** Measuring 7.4 x 6.81 x 4.25 inches, it's a size that young kids can easily handle.

- Educational play helps kids learn how to think and move by letting them connect with each other and use their imaginations.
- **Fun for Everyone:** The puppy is made for younger kids, but dog fans of all ages can enjoy its interactive features.
- **Barking Feature:** Being able to bark adds an audio factor to the game that makes it more fun overall.
- **Flip Trick:** Does a spin in all directions, which is fun to watch and play with.
- Great idea for a gift for kids and dog lovers on their birthday, during the holidays, or for any other special event.

SETUP GUIDE

- **Unboxing:** Carefully take the puppy out of its box and look for any damage that happened during shipping.
- **Check the Contents:** Make sure the toy is full and doesn't lack any parts or accessories.
- **Installing Batteries:** Open the battery box and put in two 1.5V AA batteries, making sure they are in the right way around (+/-).

Only remove the one screw at the back and push the cover out to insert two AA Batteries

- **Power On:** To turn on the puppy, press the power button or switch in the battery box.
- **Functionality Test:** Press the start button to see how well the puppy walks, barks, and flips.
- **Choose a Play Area:** Choose a good place to play, ideally one with a flat surface that the puppy can use to walk and do tricks.
- **Show Kids How to Use It:** Show kids how to use the different features by pressing the right buttons.
- **Encourage Creative Play:** To help kids use their imaginations, ask them to make up stories and situations with the dog.
- **Watch Kids Play:** Keep an eye on little ones while they play to make sure they use the toy safely and correctly.
- **Use for Social Play:** To encourage kids to work together, have them play with their brothers or friends.
- **Change the Surface Settings:** If the puppy is having trouble walking or flipping, change the surface it's on so it works better.
- **Routine Play:** Include the puppy in your daily playtime to keep interacting with and having fun with them.
- **Set up a safe area:** Pick out a place to play where the puppy won't have to worry about falling off of things.
- **Teach about Care:** Show kids how to handle the puppy gently so it lasts longer and works better.
- **Routine Functionality Checks:** Make sure the puppy does everything it's supposed to do on a regular basis and replace the batteries as needed.

CARE & MAINTENANCE

- Every so often, wipe the puppy's skin clean with a wet cloth to keep it free of dust and dirt.
- **Do Not Soak:** Do not immerse the puppy in water; only clean specific areas.

- **Battery Care:** Change the batteries when they run out and take them out when you're not going to use the puppy for a while.
- **Check for Damage:** Look for wear and damage from time to time, especially around the seams and moving parts.
- To keep the puppy in good shape, store it in a cool, dry place when not in use.
- **Handle with Care:** Teach kids to be gentle when they play with the puppy to keep it from getting hurt.
- **Check the Battery Life:** Make sure to check the battery life often and change the batteries when necessary to get the best performance.
- **Avoid Direct Sunlight:** Keep the puppy out of direct sunlight to keep the materials from fading or getting damaged.
- **Keep Away from Pets:** Keep the puppy away from pets so they don't chew on it or handle it rough.
- **Check Performance:** Make sure all of the puppy's functions are working right by testing them from time to time.
- **Fix Small Damage:** Sew back together any gaps or parts that are coming apart to stop further damage.
- **Teaching the Right Way to Use:** Show kids how to care for and use the dog properly.
- **Rotate Use:** Let the puppy play with other toys at the same time to keep one from getting too worn out.
- **Do Not Use Rough Surfaces:** Do not use the puppy on surfaces that could hurt or scratch its feet.

TROUBLESHOOTING

Issue	Solution
Puppy does not walk	Ensure batteries are installed correctly and are fully charged.
Stops flipping	Check for obstructions in the flip mechanism and remove any debris.
Makes noise but doesn't move	Replace worn-out batteries with new ones.
Movement becomes sluggish	Verify that nothing is tangled in the puppy's legs or wheels.
Puppy falls over during flips	Use on a flat, even surface to avoid tipping over.
Unresponsive to on/off switch	Inspect the switch for damage; may need repair or replacement.
Batteries drain quickly	Use high-quality alkaline batteries for better performance.
External parts come loose	Tighten any loose screws and secure external components.
Fur gets dirty	Clean with a soft, damp cloth; avoid harsh chemicals.
Tail does not wag	Check the tail mechanism for a disconnection or break.
Stops operating suddenly	Reset by turning off and then on again.
Excessive noise	Lubricate moving parts carefully if accessible.
Battery compartment issues	Ensure the compartment cover is secured properly.
LED eyes do not light up	Check LED connections or replace batteries.
Product smells of burning	Cease use immediately; inspect internal electronics.

PROS & CONS

PROS:

1. **Engaging Movements:** Mimics real puppy behaviors, providing interactive fun.
2. **Compact Size:** Ideal for small hands, easy to carry and play with anywhere.
3. **Affordable Price:** Accessibly priced for a wide range of consumers.
4. **Simple Operation:** Operated by straightforward battery power for ease of use.
5. **Durable Design:** Made by PowerTRC, known for quality and lasting toys.

CONS:

1. **Battery Dependent:** Requires frequent battery changes depending on usage.
2. **Limited Features:** Only basic movements without advanced technological features.
3. **Noise Level:** The mechanical movement can be somewhat noisy during operation.
4. **Choking Hazard:** Small parts may pose a risk for children under three years.
5. **Maintenance:** Regular cleaning needed to maintain appearance and function.

WARRANTY

The PowerTRC PO-1 Walk and Flips Puppy comes with a standard 90-day warranty covering defects in materials and workmanship. This warranty ensures that consumers can receive repairs or replacements if any issues arise under normal usage conditions within the first three months of ownership.

FREQUENTLY ASKED QUESTIONS

What is the PowerTRC PO-1 Walk and Flips Puppy?

The PowerTRC PO-1 Walk and Flips Puppy is a miniature figure designed for interactive play, featuring movement and tricks that engage children in imaginative play.
