INSTALLATION

Plug In

1. Plug the controller into the device with a USB interface Make sure the indicator light on the device is flashing rapidly, indicating the device is ready to connect.

2. Measure the area you wish to attach the LED strip to. Ensure that the ore has a clean, solid surface.

3. Measure the LED strip for the desired length, starting at the end closest to the connector for the Bluetooth Controller.

   IMPORTANT: If you measure 8 cut from the opposite end, you will not be able to connect the LED strip to the Bluetooth Controller.

4. Locate the closest cut mark to your desired length. Each strip has cut markings located every 10cm. Take a sharp pair of scissors or blade, and cut along the cut mark.

5. LED Strip Adhesive Installation 'Follow Instructions Carefully

Peel adhesive lining from the back of the strip light.

Be sure to thoroughly clean surface or wall with any standard rubbing alcohol before applying adhesive and let dry.

Position LED strip upon surface and press every section firmly for at least 30 seconds ensuring a strong hold.
NOTE:
3M adhesive may not adhere well to vinyl surfaces nor to delicate wallpaper.
FCC Warning:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including

interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.The device can be used in portable exposure condition without restriction.
DOWNLOAD APP

Download the SmartLife App from App Store or Google Play.

If you would like to enjoy the features of SmartLife as a guest, click on "Try Me". Otherwise, follow these steps to register:

Register an account on your SmartLife App.

1. Enter your mobile phone number or email address
