2-Axis Equalizer Setup

- Firstly, take ba in Slider and loosen the screws from the bottom. Remove the part with index markings.

- Mount this part on the handlebar grip and fix it with provided screws.
- Then take a small Slider and Rail System. Join both of these together via the provided screws, as shown.

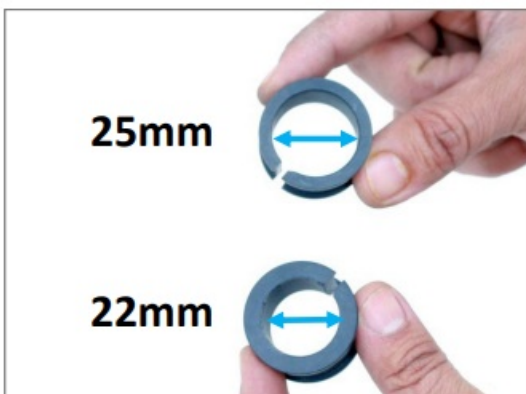

- Loosen and remove one of the rubber end-stoppers from the big Slider. Insert the above joined small Slider setup onto the big Slider.
- Now again fix this part on the big Slider. After fixing, it will look as shown in the image.
- Tighten back the rubber end-stopper on a big Slider to secure the Rail System.
- Now loosen and remove one of the rubber end-stoppers from the small Slider.
- Insert the Rail System with Loop onto the Slider and tighten back the stopper to secure it.

Top Handle Assembly

The Top Handle Grip works well with DJI Ronin/M/MX and DJI RONIN 2 (R2) Gimbals.

NOTE: If you wish to change your Gimbal from free fly MOVI to DJI Ronin, then change the Handle Grip System by removing the bottom part with index markings.

- Take the Top Handle Grip, loosen, and remove the screw. Mount the part with index markings onto the Grip and fix it with screws.

- Now fix this part on the bottom of the big Slider and tighten the screws accurately.
- **NOTE:** There are 2 sizes of Adapter Rings provided with this gear – 25mm & 22mm. You can very easily change Adapter Rings from Grips as per requirement.
- Therefore, the grip can clamp onto 22mm, 25mm, 3, and 0mm tubes.

- Loosen all the screws on the bottom of the Top Handle Grip, to change Adapter Ring.
- Pull one section up to take out the Ring.
- Insert the other side of the Ring and tighten the screws back.

NOTE: Similarly follow the mentioned above steps to change the Adapter Ring of the Handle Bar Grip.

To Increase the Height of Handle Grips

NOTE: There are 4 Height Risers provided with this gear. You can very easily increase the height of Grips as per requirement.

- Take the Handle Bar Grip, and loosen all 4 screws to remove Tube Clamps. Then attach Height.

- Risers with Clamps.
- Now fix these Clamps with Handle Bar Grip and tighten the screws back. Your Handle Bar
- The grip has more height now and will look as shown in the image.

OUR PROAIM 2-AXIS EQUALISER FOR THE FLYCAM FLOWLINE IS ALL DRESSED UP AND READY TO GO! SHOWN WITH OPTIONAL ACCESSORIES)

Warranty

We offer a one-year warranty for our products from the date of purchase. Within this period, we will repair it without charge for labor or parts.
