Flowmax Setup

- Attach the Support rod into the Jacket's support rod holder and tighten the knobs.
- The height of the Support rod is adjustable; you can adjust it via provided Allen key as per your setup requirement.
 - **Note:** A tension adjustment knob at the bottom allows changing the amount of tension of spring depending on the weight of setup while retaining stability and control.
 - **Note:** The Back Plate is also height-adjustable and allows balancing the setup weight; this adjustment helps in reducing the load on the lumbar area and helps eliminate back pain.

- You can make this adjustment by providing key.
- You can make waist area adjustments quickly by adjusting the ratchet buckle belts.
- Now, attach both Chest buckles with waistbuckles.

- You can adjust the angle up to 210° as per requirement, insert the pin to lock correctly.
- Loosen the knob on the hook and attach a camera/gimbal camera setup with it.
