## prolink PCWM-7005 Wireless multimedia desktop combo

### Package Contents

## Overview

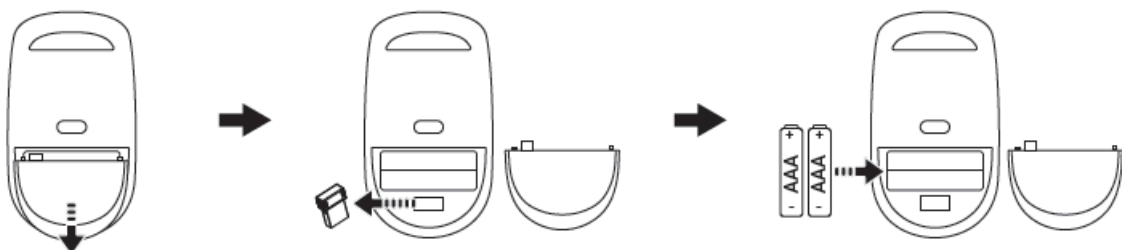

## Using the Device

The wireless keyboard and mouse are paired to work as a complete set with the receiver. User can use the product right away with the following steps:

1. Insert the receiver into the USB port of computer
2. Insert batteries into the battery compartment of both keyboard and mouse
3. The computer will detect and setup the device automatically
4. Upon completion, the keyboard and mouse can be used
5. If no response either from the mouse or keyboard, please eject the receiver and insert to another USB port of the computer or replace a new set of batteries

### Install battery and remove USB receiver

- Remove the battery compartment cover
- Take out the USB receiver from mouse
- Insert the included AAA battery into the battery compartment. Make sure the battery orientation matches the “+” and “-” symbols in the compartment
- Replace the battery compartment cover back to its original position

### Note:

- Store the USB receiver in the mouse when it is not in use
- Plastic cover / paper strip (if any) needs to be removed for completing the circuit

## Sleep Mode

The combo will go into Standby Mode after 60 seconds and Sleep Mode after 8 minutes of inactivity to conserve

battery power. Click on any key on the keyboard and mouse to exit from Sleep Mode

## DPI switch button

The resolution of the mouse can be switched between 800DPI / 1200DPI (default) / 1600DPI with the DPI switch button

## Multimedia Shortcuts

14 Multimedia shortcuts provide instant access to multimedia control
