2. Plug the USB Receiver into the USB port on your computer. Your computer's operating system will identify the receiver and install the default driver automatically.

## 3. Synchronizing your Wireless Presenter

The receiver and presenter will synch up automatically. If not, reinsert the USB Receiver and then holding the "Connect" button for about 3 seconds.

## **Safety Measures**

1. To avoid possible eye damage, never point the presenter's laser at people, especially their faces, or look directly into presenter's beam.
2. Avoid pointing the presenter's laser mean at a mirror or other high-reflective surfaces
3. Keep the presenter away from young children.
4. Never view the presenter's laser beam through telescopic devices, such as microscope or binocular.
5. Any attempt to disassemble, adjust or repair the presenter may result in exposure to laser light or other safety hazards

## **Trouble shooting**

If the presenter is slow to response or intermittently stops working, please pay attention to the following points:

1. Make sure that the presenter is within 30 feet (10m) of its receiver
2. Tum off or keep away from other wireless devices to avoid their signal interference.
3. Reinstall the battery.
4. Re-synchronize the receiver and presenter. Re-insert the USB Receiver and then holding the "Connect" button for about 3 seconds.

## **Caution**

Please turn off the item when it is not in use in order to prolong its working life.
