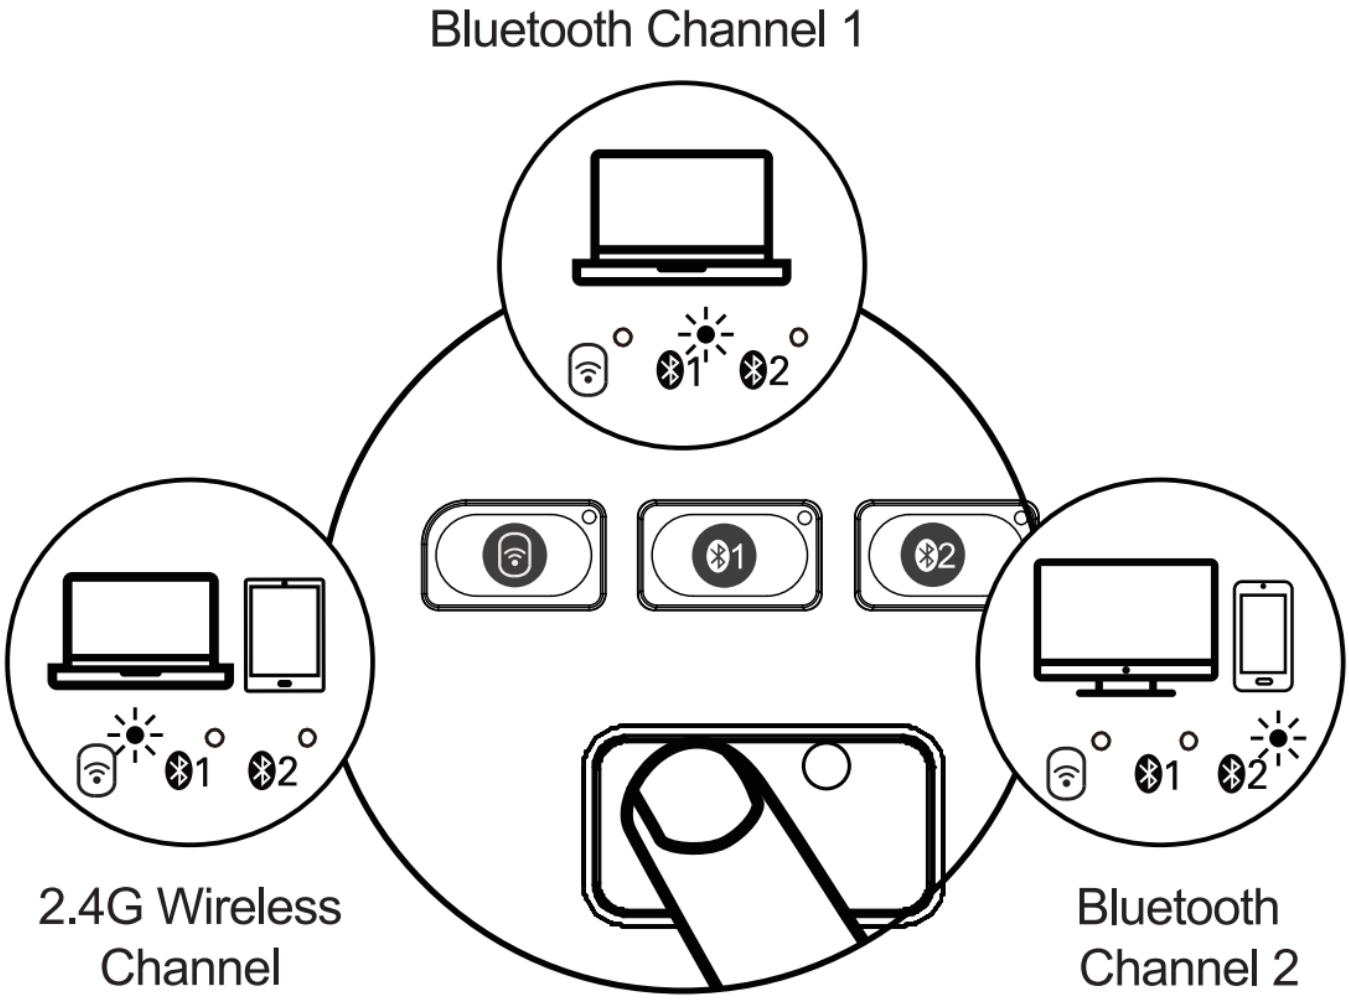
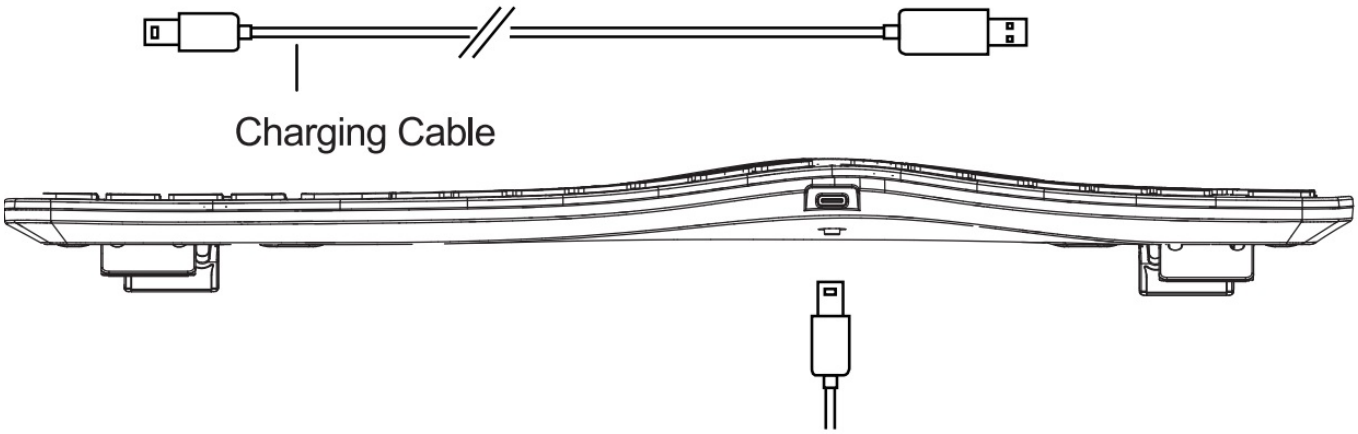
How to Switch Device Channels

After pairing/connection, simply press the channel button to switch to the corresponding device.



Keyboard Charging



When the battery is low, the white indicator light on the button of the channel in use will start to flash until the device shuts down. Please charge the keyboard as soon as possible to ensure it has sufficient power for stable connection.
If the battery is too low, it may cause poor connection quality, resulting in delays or other problems while using. Charge in time to avoid these problems. Power indicator light is red while charging, and will turn green when fully charged. A full charging cycle is about 2 to 3
hours.
