ProXtend Windows Camera App Instructions

ProXtend Windows Camera App Instructions

Contents

## How to access your webcam settings

1. Plug your webcam into a USB port on your PC.
2. Locate the Microsoft camera application in the Windows start menu.
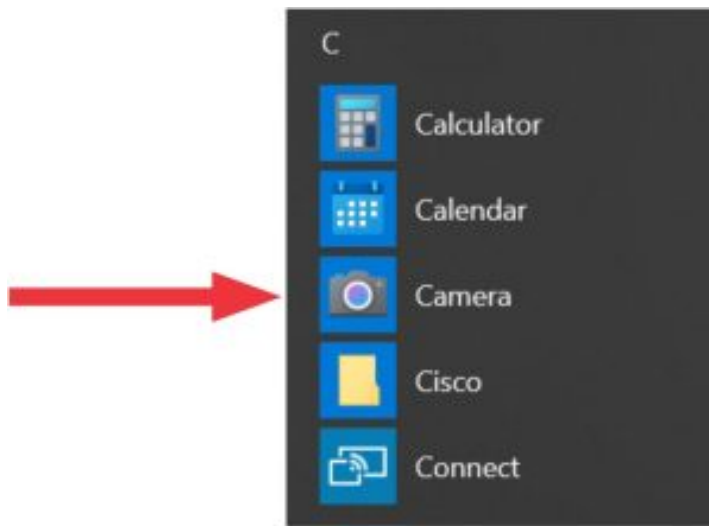

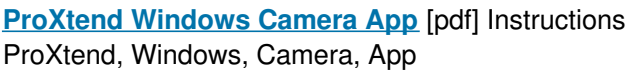

3. If your laptop (with built-in webcam) sits closed in dock and you use a stand-alone webcam on your external monitor, click the "Switch camera"-icon in the top right corner of your screen.

4. Now you have access to the stand-alone webcam and can adjust the settings from the ⚙ icon in the top left corner of the camera app.
