4. When you see "pTron BT speaker" in the list of available devices, select it to pair. Now you can enjoy music with both speakers.
5. If you do not want to use TWS mode, long press the "MFB" button for 2 seconds again

Troubleshooting

Connectivity Issue

1. Ensure Bluetooth is enabled on both the speaker and the source device.
2. Move the devices closer to each other to avoid range issues.
3. Turn off other Bluetooth devices to avoid interference.
4. Reset the Bluetooth connection by forgetting the sound bar on yoursource device and then reconnecting.
5. Restart both the speaker and the source device.

Sound is distorted/low volume/low bass/low quality?

1. Check if the connected device does not have any equalizer settings applied.
2. Check if the problem still occurs if the device is moved closer and all obstacles in the middle are removed.
3. Check if the distortion or quality lowers at all volumes or only at high volumes.
4. Check the sound on different media players and different devices and if the distortion happens on all devices or onlyonspecific ones.
5. Check if the problem occurs at all levels of charging or only at low charging levels.

Important: Please use this speaker within a 10 metre wireless range from the connected device.
