APP installation requirement:	Android 5.0/10S 7.0 or above
Product Size:	33×21.5×19.5cm
Net weight:	1.88 KG
Capacity:	4L
Product Materials:	ABS
Wi-Fi Band:	2.4 Ghz
Adapter Parameters:	Input:110-220V,50/60HZ,0.4A Output:5.0V,1000mA
Power:	DC 5V power adapter; 3x alkaline D batteries(not included)

Product Overview

Startup

1.Assemble the Food Tray

- Install the food tank into the base.
- Put the removable stainless steel bowl into the food tray, and install the food tray into base.

Note:

1. Please empty and remove the tray before moving the feeder.
2. Hold the base instead of any other parts when lifting the feeder.

2.Placing Desiccant Bag

Open the food tank lid and put the desiccant bag (1 Included) into the desiccant carrier.

Note:

1. Recommend to use and replace the desiccant bag once every half month.
2. Please remove the desiccant bag before cleaning the food tank lid.

3.Connecting Power

- Insert the 5V power adapter into a wall socket. Plug in the power socket of the feeder and the LCD screen will light up.
- Open the battery compartment at the bottom of the unit, and install 3 alkaline D batteries (not included) in case of outage

Note.

1. Battery NOT includes.
2. Before connecting to power, make sure all parts are clean and completely dry.
3. The battery should power with an output of 4-5V; the battery level icon on the display blinks on a low battery level(<4V).

4. Change the batteries every 6 months if not in use for a long time.
5. Recommend using both battery and adapter in case any of power cut off.

4. Fill Food Tank

- Fill food tank with dry pet food. Close the lid and it will snap into place due to gravity.

Note:

1. Do not use canned, wet or moist pet food.
2. Recommend kibble size ranging from 2-12mm/0.07-0.48in in diameter.

Details

Connecting to the feeder

Please use the quick start guide to establish the connection.

01

02

ATTENZIONE!

The 2.4GHz Wi-Fi network password must not contain special characters ("","@","#","%","&","^","~"etc.), otherwise the Smart Life App will not be able to connect to the pet feeder during the setup process.

03

Turn on the Wi-Fi, Bluetooth and location of your phone.

04

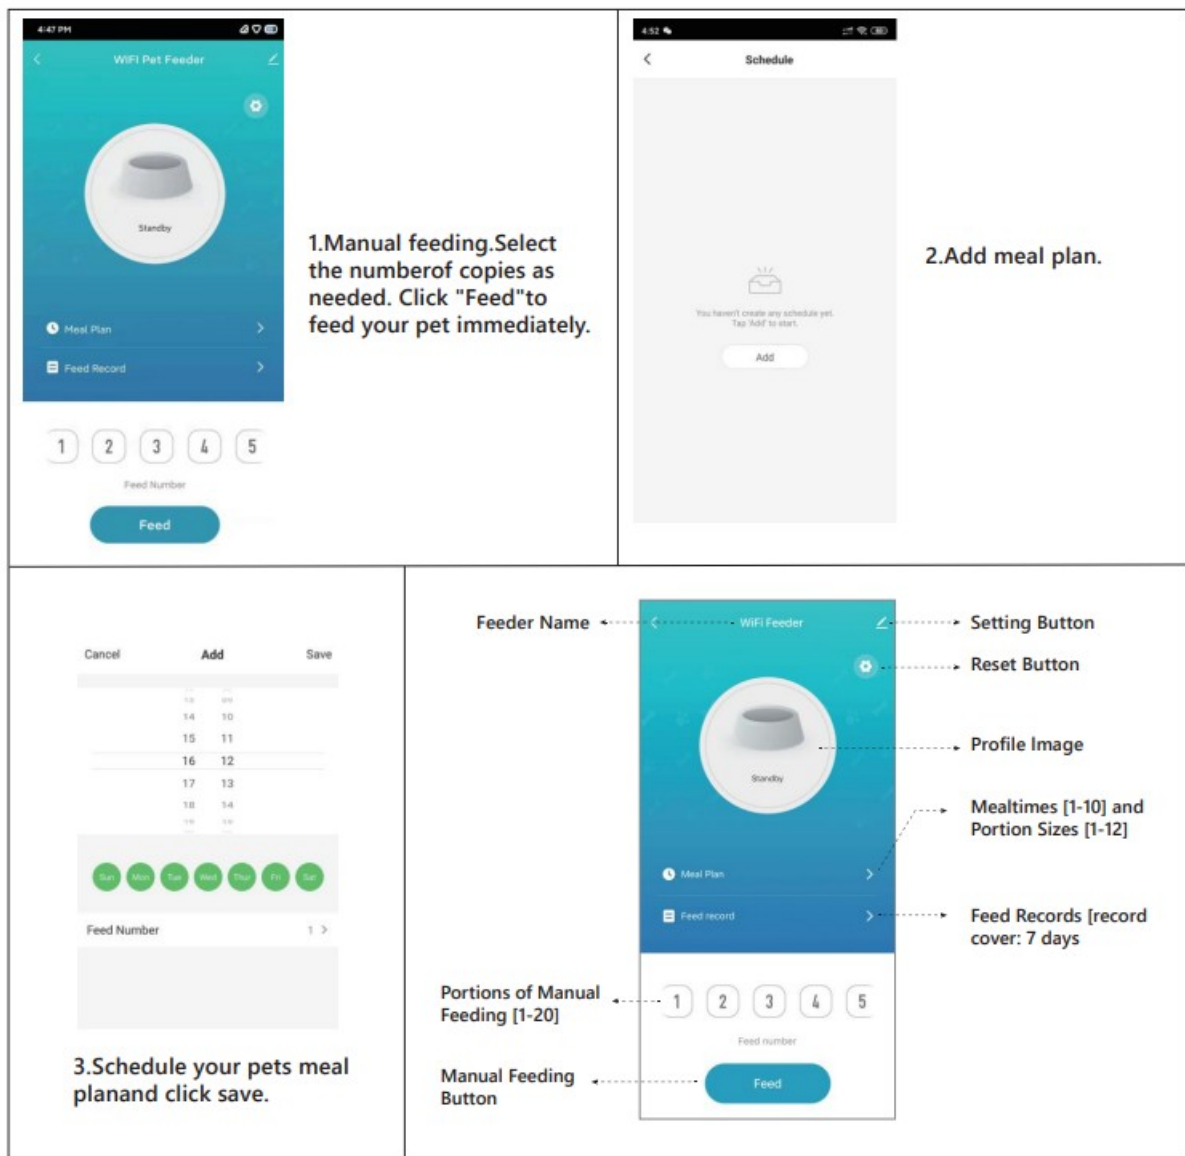

Plug in the Pet Feeder and wait for the blue light to start flashing rapidly.

05

Scan the QR code and download "Smart Life" APP

Control the feeder via app

Maintenance

1. Please clean the feeder once a month.
2. Food container, food tray, and the lid can be cleaned with water.

Troubleshooting

Problems	Solutions
The food does not come out	Dry food size should range from 2-12 mm diameter.
	Check the chute and food outlet for foreign objects.
	Check whether battery power is low.
The feeder does not respond	Check that the power cable is properly plugged into the device and power plug.
	Check that the batteries are inserted correctly and are not dead.
2.4 Ghz Network configuration issues	If it is a dual-frequency router, please access the router and turn off the 5 Ghz Wi-Fi signal.
	Save and restart the router, and then reconfigure the feeder.
	5G WLAN is not supported, Bluetooth must be enabled and the APP password must not contain special characters (!"#\$%&'()*=?...).
Pet feeder is frequently offline	Restart the router and feeder.
	Put the pet feeder within 10m of the router.
	Please update to the latest version of the APP
	Change the routers IP address to: 192.168.1.1 or 192.168.0.1
