Setting up your first Jongo?

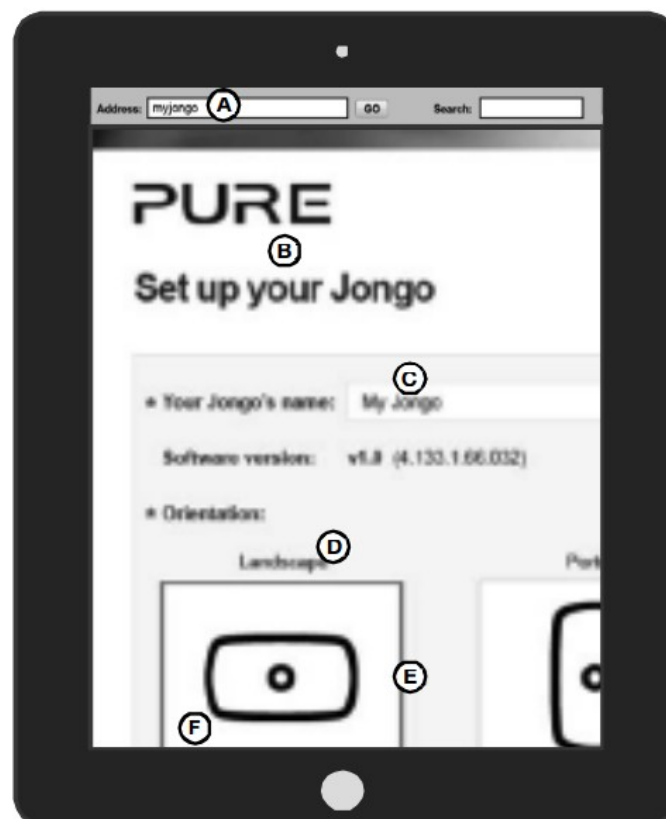

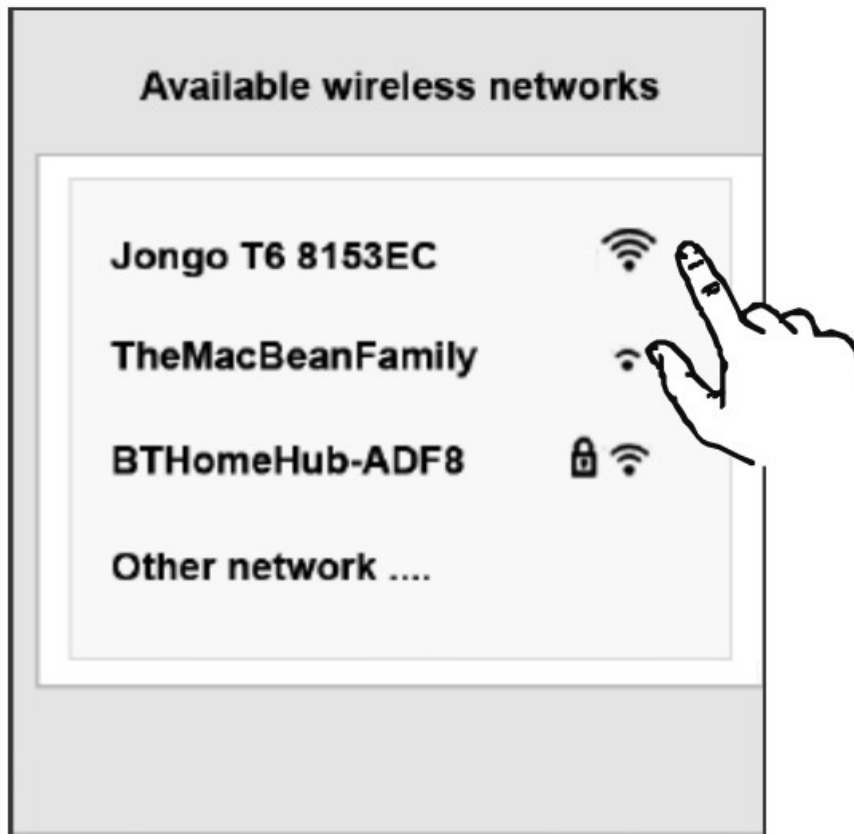

- Insert the connector of the supplied AC power cord into Jongo (A) and switch on the power (B).
- If you have already set up your first Jongo, jump to step 7.
- When the Power light turns solid green, press the Wi-Fi button (C) on the back.

☀ Wait a few seconds for the Power light to 2N flash amber.

Search for Jongo

- On your mobile device search for available Wi-Fi networks.
- Your Jongo will be listed as a network.
- Connect to this network.

Add Jongo to your wireless network

A. The Jongo Setup page should open automatically @1 your device.

B. If not, open your internet browser and enter myjongo i1 the address bar.

C. If you want =0 rename your Jongo, type i1 the tlew name.

Select whether your Jongo has been positioned i1 Landscape o Portrait mode.

D. Select your wireless network.

E. Enter your network password i required.

F. Tap Save.

Once you tap Save the light will pulse and then turn solid green to show that your Jongo is connected.

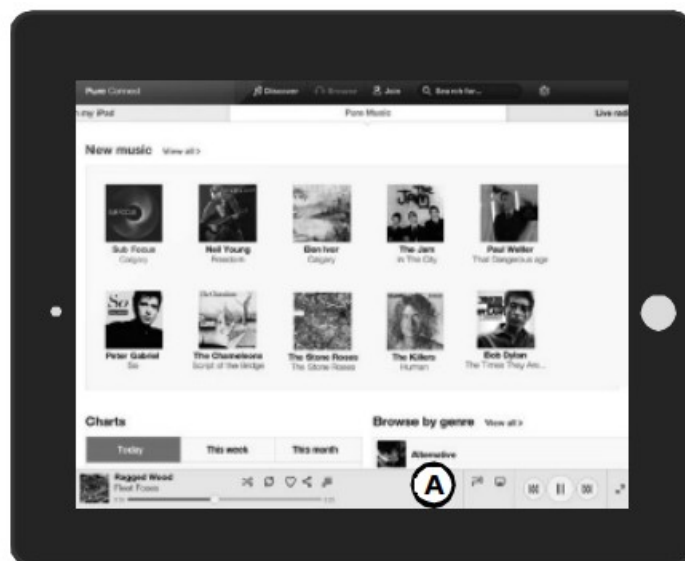

If the connection fails, the light will flash red. Don't worry, this probably means you mistyped your Wi-Fi password.

Just go back to step 2 and try again.

If the problem persists visit support.pure.com/us

Choose your music

Open the Pure Connect App and select the music you want to listen to. You can choose from Pure Music*, live radio, on-demand content, ambient sounds and the music stored on your device.

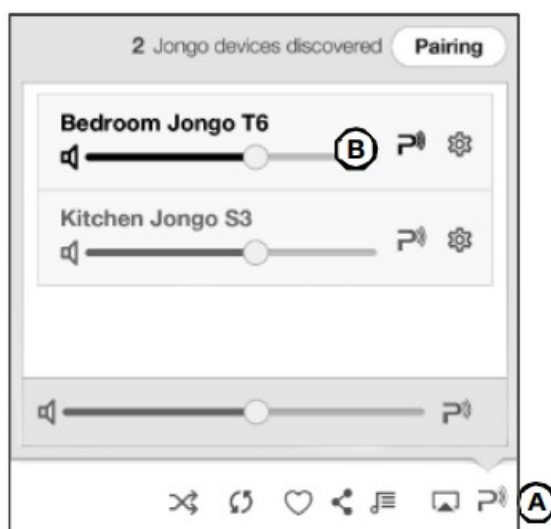

After selecting the content that you want to listen to, the player bar will appear at the bottom of the screen.

Start streaming!

To stream to your Jongo:

- Tap in the list of available Jongs in the player bar to view a list of available Jongs on your network.
- Tap next to the Jongs you want to stream to.

Congratulations!

You're all set up. Enjoy your music.

Adding another Jongo to your network?

- Switch on your new Jongo.
- Press and hold the Wi-Fi button on any other Jongo that is already connected to your network until the Power light pulses green.
- Press and hold the Wi-Fi button on the back of the new Jongo until the Power light pulses green.

After around 30 seconds, the Power lights on both Jongs will light steady green to confirm that the new Jongo is connected to your network.

If the connection fails, the light will flash red. Don't worry, just go back to step 2 and follow the standard setup.

Using Bluetooth

1. Enable the Bluetooth option on your mobile device and search for Bluetooth devices.
2. pair . , If your device requires a key, enter '0000'.

Approvals

CE marked. Hereby, Pure, declares that this Band II LPD device is in compliance with the essential

equipments and other relevant provisions of Directive 1999/5/EC. The Declaration of Conformity may be Consulted at: <http://www.pure.com/RETTE-DoC>.

Australian C-Tick N 1600 and Electrical Safety.

FCC NOTICE TO A USER IN THE UNITED STATES

Warning: Changes or modifications to this Unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement: Caution: This Transmitter must be installed to provide a separation distance of at least 20 m from all persons.

IC NOTICE TO A USER IN CANADA

Since digital circuitry may cause interference to other radio or television tuners nearby, switch this Unit off when not in use or move it away from the affected radio/television tuner.

NOTE: This digital apparatus does not exceed the Class B limits of radio noise emissions from digital apparatus as set out in the Radio Interference Regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television operation (which can be determined by turning the equipment off), the User is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
