Scan the QR code to get the installation video.

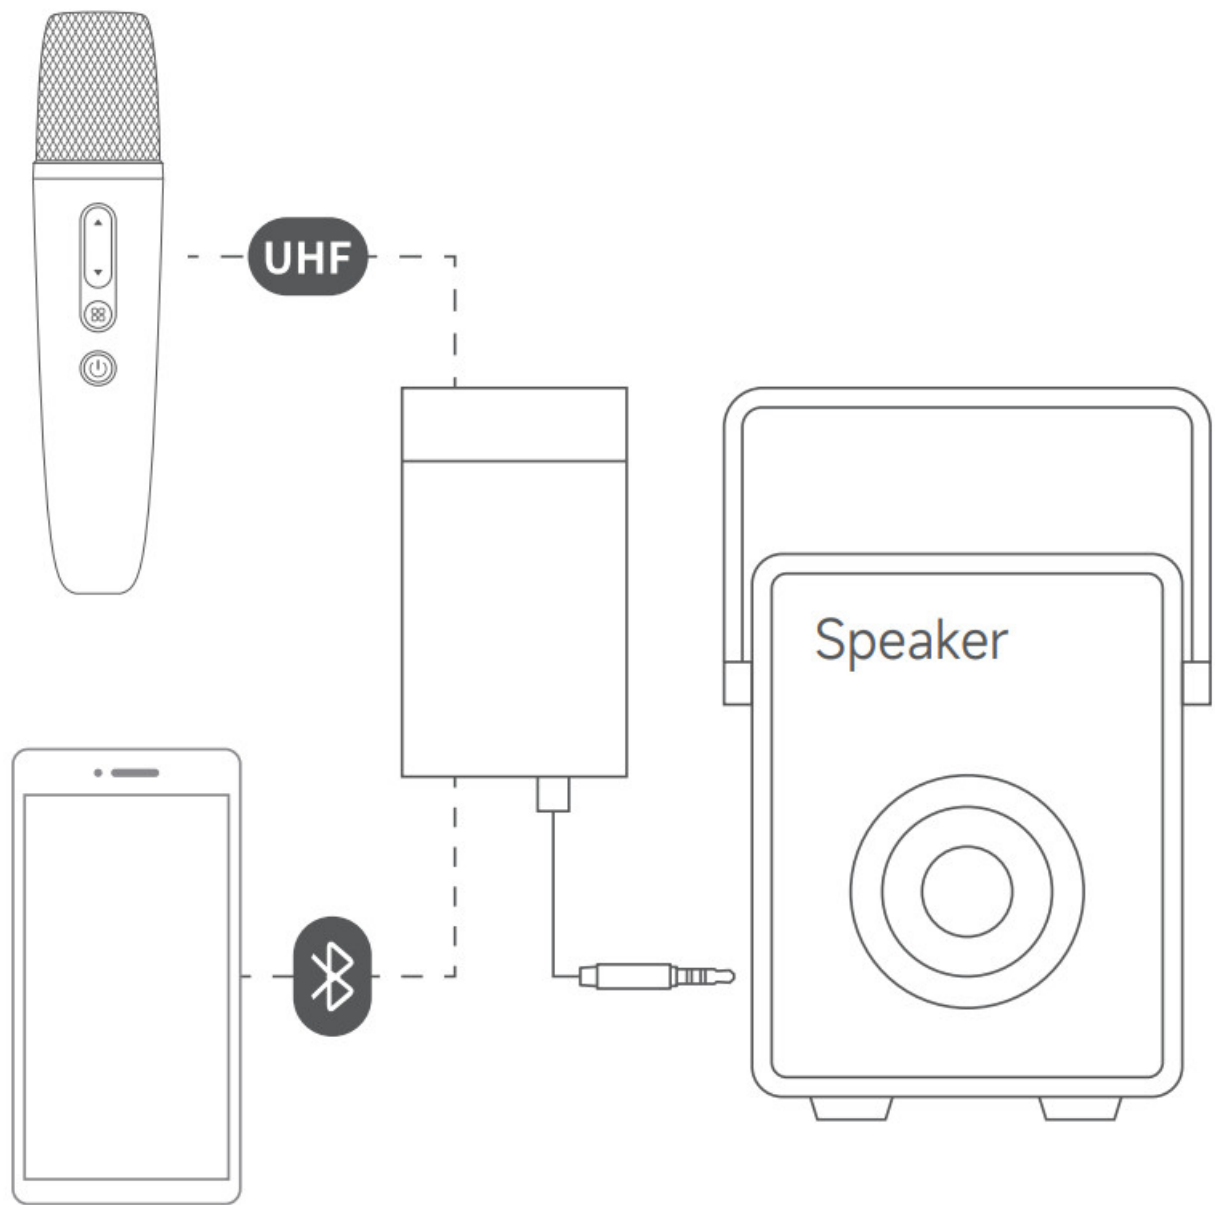

<https://youtu.be/NcqVVIR44vo>

If there is no sound after the installation or not available to use, please contact us the first time via the sales platform or official account.

Setting Steps for Speaker Use

1. Insert the 3.5mm Aux cable of the receiver into the Speaker's AUX connection socket;
2. Connect the Phone/Pad with the receiver through Bluetooth and play songs;
3. Turn on the microphone and start singing.

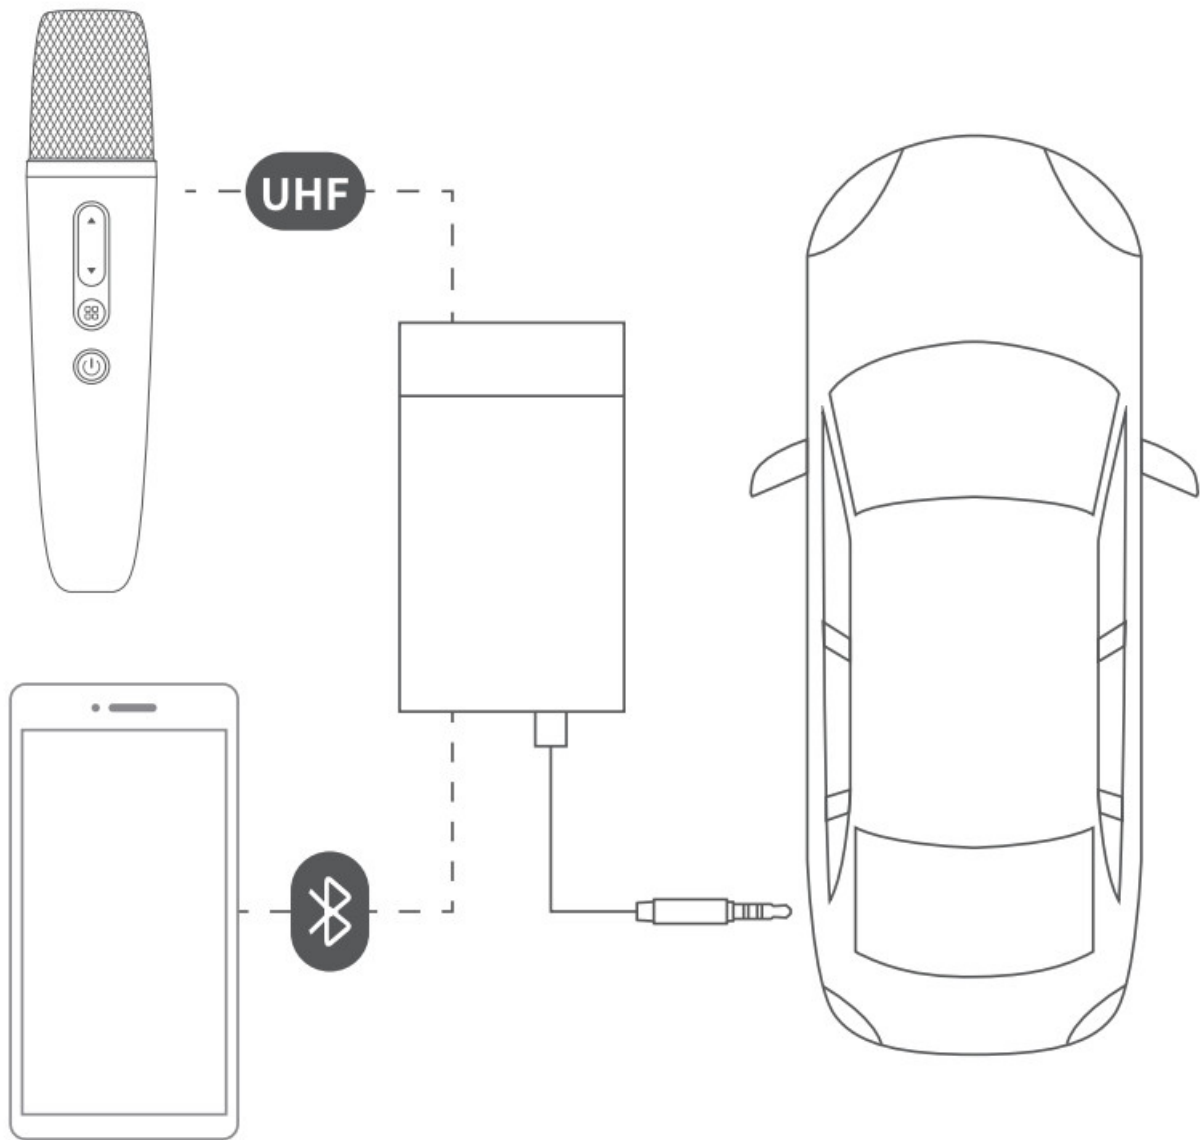

INSTALLATION & USE

Setting Steps for Universal Auto/Car

1. Insert the 3.5mm Aux cable of the receiver into the Car's AUX connection socket.
2. Connect the Phone/Pad with the receiver through Bluetooth and play songs.
3. Turn on the microphone and start singing.

Note: This connection only supports cars with a 3.5mm AUX interface.

**Note:**

Remember that these karaoke microphones should not be used by the driver and can only be used by passengers who are not distracting the driver.

PAIRING

(Please read the following notes carefully)

Note: The product has been paired before delivery. Do not pair again unless it is necessary. It is recommended that users conduct the pairing in the event that the microphone and receiver fail to connect (please refer to the description):

The microphone is on, the indicator light of the receiver is flickering slowly and there is no sound of the microphone; it is recommended that users conduct the pairing in the event that the above-mentioned problems fail to be solved by re-plugging the receiver.

Steps for Pairing

1. Keep one microphone powered off, Hold the VOLUME+ key and POWER key at the same time for over 5s, the indicator light of the microphone will frequently flicker to start the pairing mode;
2. Keep another microphone powered off, Hold the VOLUME- key and POWER key at the same time for over 5s, the indicator light of the microphone will frequently flicker to start the pairing mode;

3. Put the microphone close to the receiver within a range of about half a meter. Make sure no other objects in between;
4. Holding press the receiver POWER key for 5s until the indicator light of the receiver flickers frequently;
5. The microphone and receiver have been paired up once the indicator light of the receiver flicker frequently;
6. Briefly press the SOUND EFFECT key and the ON/OFF key at the same time for both microphones to exit the pairing mode. At this moment, the indicator light for both microphone and receiver will be on. That is, they have been paired.

FAQ

The power indicator light of the microphone is not on.

Make sure the battery power is not low, otherwise, please charge in time.

What kind of charger is compatible with the microphone?

The mobile phone charger that supports 5V output can be utilized to charge the microphone. Please identify from the words on the charger whether it supports 5V output.

The microphone is no sound

1. Check if the microphone is turned on and its indicator is solid blue;
2. Make sure that the receiver has been correctly inserted into the interface of devices;
3. If the indicator light is not on, you can follow the official Facebook account or Youtube account to view the pairing process and try.

Speaker is no sound

1. Check if the receiver indicator light is on, and make sure the receiver has enough power.
2. If the receiver indicator light is on, please try to adjust the volume of the speaker & increase the microphone volume.

WARRANTY INFORMATION

NOTICE

1. Please keep the product away from high-temperature and damp places so as to avoid any breakdown.
2. It is recommended to charge in time in the event that the product is not in use for a long time so as not to compromise the service life of the battery.
3. The product has been paired before delivery for direct use. Please DO NOT pair unless it is necessary, otherwise, the product may not function properly.

FCC STATEMENT

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference;
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC ID: 2A7ZRPWMAZ-Q1 (Microphone)

FCC ID: 2A7ZR-Q1PRO (Receiver)

SPECIFICATION

Microphone

Working Voltage 3.6~4.2V
(Lithium Polymer Battery 1000mA)
Working Current 55mA
Charging Interface Type-C
Input Voltage 5V

Input Current 1A
Microphone Mode Moving-coil
Polar Pattern Cardioid
Material ABS
Microphone
Dimensions 173mm×φ38.8mm

Receiver

Working Voltage 3.6~4.2V
(Lithium Polymer Battery 1000mA)
Working Current 200mAh
Input Voltage 5V
Input Current 1A
Sensitivity -94dBm
Communication Distance 10m
Wireless Type Inner Antenna
Bluetooth Name .. Loostone PureMic Q1PRO
