INSTALLATION- WINDOWS 7/8/10

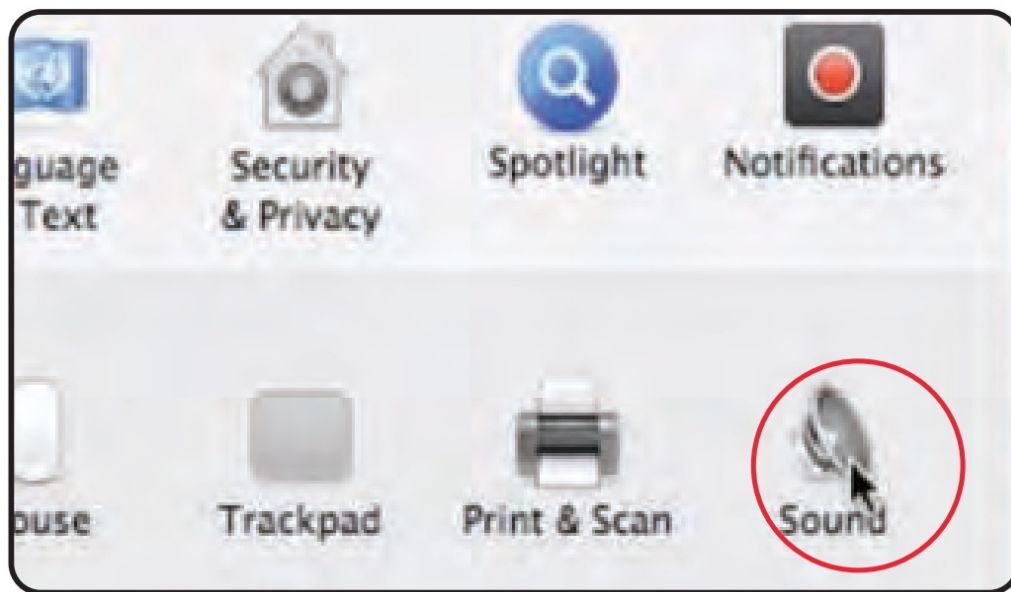

CHANGE SOUND INPUT/OUTPUT ON MAC OS

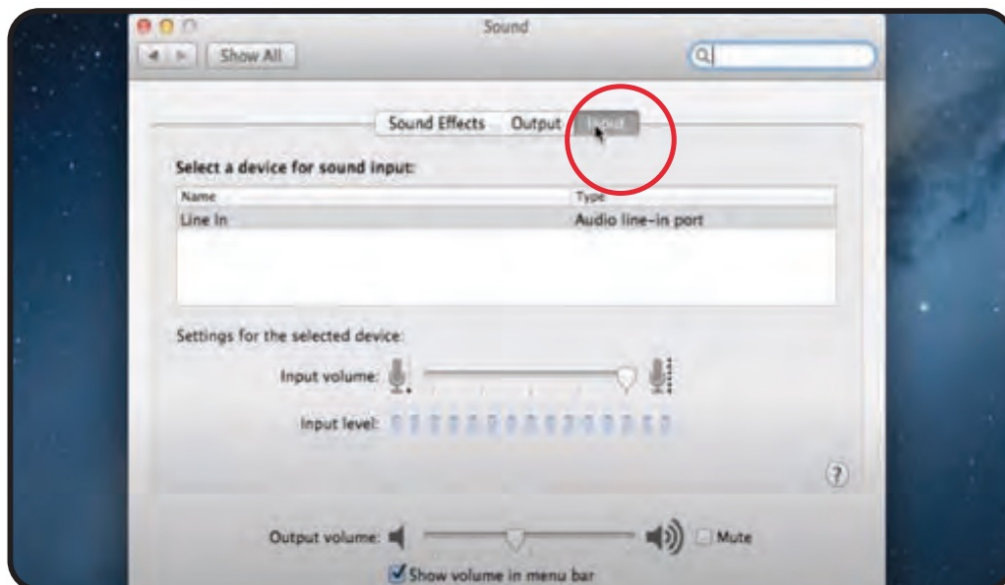

1. On your Mac, choose Apple menu > System Preferences, Click Sound, then click Output.

2. Select the device you want to use in the list of sound output devices. For any device plugged into the computer's sound port, choose Microphones.

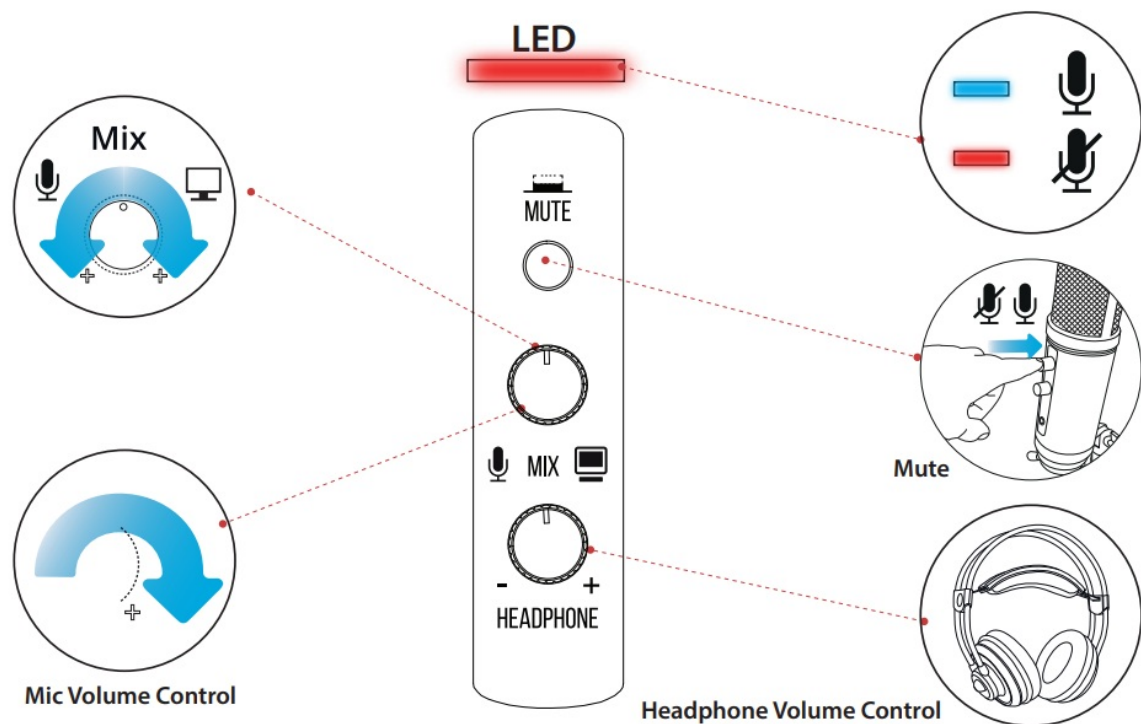

3. Do any of the following to adjust your sound output settings: Adjust the balance or volume: Drag the volume slider. Show a volume control in the menu bar: Select the “Show volume in menu bar” tickbox so you can turn the volume up or down from anywhere.

To set a separate volume for alert sounds, click Sound Effects.
