Introduction

1. The Controller is equipped with a light bar that displays various colors. Different light bar colors can be used to represent different game players, and can be used as an important message reminder (for example, the game character's health reduced, etc.). In addition, the light bar can also interact with the PlayStation Camera, allowing the Camera to determine the Controller's action and distance through the light bar.
2. Standard buttons: P4, Share, Option, , , , , , , , , L1, L2, L3, R1, R2, R3, VRL, VRR.
3. The Controller supports any software version of the PS3/PS4 console.
4. The controller uses standard PS4 function (The same function as the original controller, can work on the PC through the driver, supports X-Input and D-Input, no need driver on Windows 10), and supports Android system devices.
