## Q-TRAN AK1RGB Linear Fixtures Surface

## Product Information

### Specifications

- **Product:** AK1RGB
- **Watts/Ft:** 6.0
- **CCT:** RGB
- **Rated Efficiency:** Standard
- **Lens:** Diffused
- **Wire Input:** Bare Wire (Standard 24)
- **Wire Output:** Closed End (No feed)
- **Wire Color:** White
- **Wire Type:** Class 2
- **Mounting:** Stainless Steel Plastic Clip
- **Finish:** Satin Black
- **Length (in):** Exact/Optimal

### Product Usage Instructions

#### Step 1: Mounting

Attach the provided stainless steel plastic clips to the desired surface. For fixtures that are 4' or less, use 2 clips. For fixtures that are greater than 4', use 4 clips. If additional clips are needed, you can order them separately using SST-03.

#### Step 2: Wiring

Connect the wires to the fixture using the following instructions:

##### Wire Input:

The standard wire input is bare wire (standard 24). Connect the white wire to the positive terminal and the black wire to the negative terminal.

##### Wire Output:

The standard wire output is closed end (no feed). Connect the white wire to the positive terminal and the black wire to the negative terminal.

##### Note:

If you need a custom wire length, you can request it by writing the desired length next to "BW" in the part number. For example, if you need a 48-inch wire, write "BW48" in the part number.

#### Step 3: Power Supply

Refer to the last page of the manual for compatible power supplies. Make sure to use a Q-Tran power supply for the 5-year warranty to be valid.

## Step 4: Diode Visibility and Photometric Performance

For representation of LED visibility and beam angles, refer to the Diode Visibility and Photometric Performance sections on the following pages.

### FAQ

#### **Q: What is the warranty for this product?**

A: The product comes with a 5-year warranty. Please note that the warranty is only valid when used with Q-Tran power supplies.

#### **Q: Can I make modifications to the product in the field?**

A: No, field modifications will void the warranty. Please consult a professional if any modifications are required.

#### **Q: Are there any temperature ratings for this product?**

A: The temperature ratings are not specified in the user manual. Please refer to the specifications section for more detailed information.

#### **Q: What are the configuration options for wire input/output?**

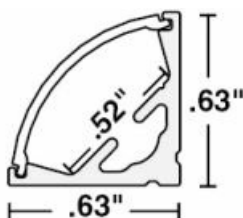

A: The standard configuration is bare wire (BW) for wire input and closed end (CLS) for wire output. No further specifications are needed for these options.

#### **Q: What wire colors are available?**

A: The available wire colors are white and black. Please select the appropriate wire color based on your preference or installation requirements.

### ARKA-FLAT (01) RGB

Linear Fixtures – Corner & Surface

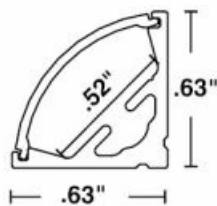

- Produces a wide 130° beam angle perfect for corner mount installations
- Ideal for cove, under cabinet and millwork applications

**Sample Part Number:** AK1RGB-6.0-RGB-DRY-STD-DF-P1-BW-BW-BK-CL2-SST-BK-48"-E
