QAZQA 107991 LED Dimmable Table Lamp Dimmer

Safety Precautions

Alessia TL Gold Rechargeable With Docking Station Set of 12 107991

Dimmable type / CRI	Full charging time	Working time after full charge	Battery life cycle	Battery specification
3000-7000K + RGB / CRI>80	3 hours	10-12 hours	5000 hours	18650 Li-ion 2600mA 3.7V

Table Lamp

- Incl. 12x LED QL7001290
- 1 2x 701m Module
- 1 2x 601m Lamp
- 1 2x 2W LED Module
- 1 2x Lamp
- 100 – 240V-50Hz / 60Hz
- 3000 7000K + RGB
- CRI>80
- 5000h
- 10000 ON/OFF

This product contains a light source of energy efficiency class G

Replaceable (LED only) light source by a professional.

Replaceable control gear by a professional.

REMOTE CONTROL

- Type number rot-note: RW-RC37B-RF
- Operating Frequency: 2402mhz
- Transmit Power: +8dbm

- Receiver Sensitivity: – 90dbm
- Coverage Area: Within 30m In Open Area
- Operating Temperature: -10-+850C
- Dimensions: 19.0×13.0mm
- Battery type (not included): AAA 1.5V*2

Simplified Declaration of Conformity

Hereby, FittinQ BV declares that the radio equipment type [designation of type of radio equipment] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.qazqa.nl

- **ON** Short press to turn on the light, Press and hold for 3 seconds for code matching operation.
- **OFF** Short press to turn Off the light, Press and hold for 3 seconds to clear the code.
- Four brightness shortcut keys, Press the corresponding brightness is displayed when the key is pressed.
- Four color temperature shortcut keys, Press the key to display the corresponding color temperature.
- **SMOOTH** Three colors slow change
- **FLASH** Seven color changes quickly

- **Night light** mode: Warm white light 20% brightness
- **ALL** Select all groups: Press to select all groups for unified control
-  Increase brightness: Short press for segmented brightness, long press for gradient brightness.
-  Reduce brightness: Short press for segmented dimming, Long press for gradual dimming.
-  Reduce color temperature: Short press is segmented subtractive color temperature, long press is gradual subtractive color temperature.
-  Increase color temperature: Short press for a segmented color temperature, long press for a gradual color temperature.
- **M1 M2** Scene mode: Press M1 to switch to warm light mode, Press M2 to switch to white light mode, Long press to save the current scene, and the lamp will blink once.
-  Automatic cycle switch: Tap to execute and the lamp will flash once.(8 hours on and 16 hours off)
- **A/B/C/D** Group control mode: They are A \ B \ C \ D, four groups, Long press any key for 3 seconds the lamp flashes 3 times, you can add the lamp to the group.

SAFETY INSTRUCTION

Please study the instruction manual and below information carefully before installing or using this product.
Please keep this user manual for further reference

1. The luminaires may only be installed by authorized and qualified technicians according the valid regulations for electrical installation.
2. Maintenance of the luminaires is limited to their surfaces. During maintenance no moisture can come into contact with any areas of the terminal connections or voltage control parts.
3. The electrical supply must be switched off at the outset, preferably by means of a switch in the distribution box, before any installation, maintenance or repair work is undertaken.
4. Exterior lighting must not be installed during rain.
5. Take account of the minimal separation distance from other Objects and the room required around the fitting.
6. If in any doubt, consult a professional, taking local installation requirements into account. Some countries stipulate that lighting may be installed only by registered installers.
7. Clamping screws in electrical connections must be adequately tightened. This is particularly the case with 12V low voltage conductors.
8. Clean with a clean, dry cloth or brush, use no solvents or abrasives. Avoid dampness on all electrical components
9. Take account of all available technical information.
10. Meaning of symbols:
 - **ipxx** This icon indicates the level of water-proof and dust-proof

- Protection Class : The fitting must be earthed

- Protection Class II: The fitting is double-insulated and does not require earthing

- Protection Class III: the fitting is low voltage

- Minimum distance from lighted objects (meters)

- The type of lamp and maximum size and wattage indicated in each lighting unit must not be exceed; different items require different kind of light sources with different bulb icons

- The armature is designed to work only with the indicated voltage. Different items require different working voltage.

- The luminaire can be used in combination with a dimmer

- The luminaire can be dimmed by wall switch

- The reference light angle and light space of the luminaire

- This luminaire cannot be disposed together with normal domestic waste in standard rubbish can, but you have to bring it to a staging area for electrical waste

11. Take note of the symbols when connecting wires:

- Live conductor
- Earth
- conductor
- Neutral
- conductor
