The marking of this device (symbol of a crossed-out dustbin) complies with European Directive 2012/19/EU relating to «used electrical and electronic equipment». This marking means that this equipment, at the end of its useful life, cannot be disposed of with other household waste.

The user is required to deliver it to operators who collect used electrical and electronic equipment. Collection operators, including local collection points, shops and local authorities, create an appropriate system for collecting equipment. Appropriate collection of used electrical and electronic equipment helps avoid harmful impacts on human health and the environment, resulting from the presence of hazardous components, as well as from improper storage and treatment of this equipment.
