QKXC X3 3-in-1 Wireless Charging Stand

Launch Date: January 7, 2021
Price: $15.99.

Introduction

The QKXC X3 3-in-1 Wireless Charging Stand is a stylish and useful charging station made to make your life easier. It's a clean way to charge all of your connected devices because it can charge your iPhone, Apple Watch, and AirPods at the same time. Because it's small, the QKXC X3 doesn't take up much room, so it's great for desks, nightstands, or workspaces. The stand allows up to 15W for iPhones and can charge them quickly, so your devices will be ready to use right away. Built-in safety features like overcharging, burning, and short circuit security make the QKXC X3 a safe way to charge your devices. Smart LED lights on it show the state of each device, so you can easily keep an eye on the charging process. This charging stand is designed to be flexible, so you can use your device while it's charging, whether you need to charge it vertically or horizontally.

Specifications

- **Brand**: QKXC
- **Product Dimensions**: 2.68 x 3.86 x 4.53 inches
- **Item Weight**: 5.5 ounces
- **Input Voltage**: 9V
- **Connectivity Technology**: Wireless
- **Compatible Devices**: Apple Watch (Series Ultra 10/9/8/7/6/SE/5/4/3), AirPods Pro 2/3 (with wireless charging case), iPhone 16/15/14/13/12/11/SE, Galaxy S22/S21/S20, Google Pixel 3/3XL, etc.

- **Included Components**: Charging station, cable, and 20W PD charger
- **Special Features**: Wireless, Fast, 3-in-1 charging, Compact, and Case-friendly
- **Mounting Type**: Tabletop mount
- **Color**: Black
- **Model Number**: X3 Pro

Package Includes

- QKXC X3 3-in-1 Wireless Charging Stand
- Power Adapter (18W)
- USB Type-C Cable
- User Manual
- Warranty Card

Features

1. **3-in-1 Charging:** The QKXC X3 3-in-1 Wireless Charging Stand lets you charge your iPhone, Apple Watch, and AirPods all at the same time, in a single, sleek, and small unit. This is a handy all-in-one solution that keeps your devices organized and charges them easily without the need for multiple chargers and cords.

2. **Fast Charging:** The QKXC X3 has 15W fast charging, which makes sure that your iPhone charges quickly and with little downtime. This charging stand gives your iPhone the best power flow for fast charging, no matter if you have the newest iPhone 15, 14, or an older model.
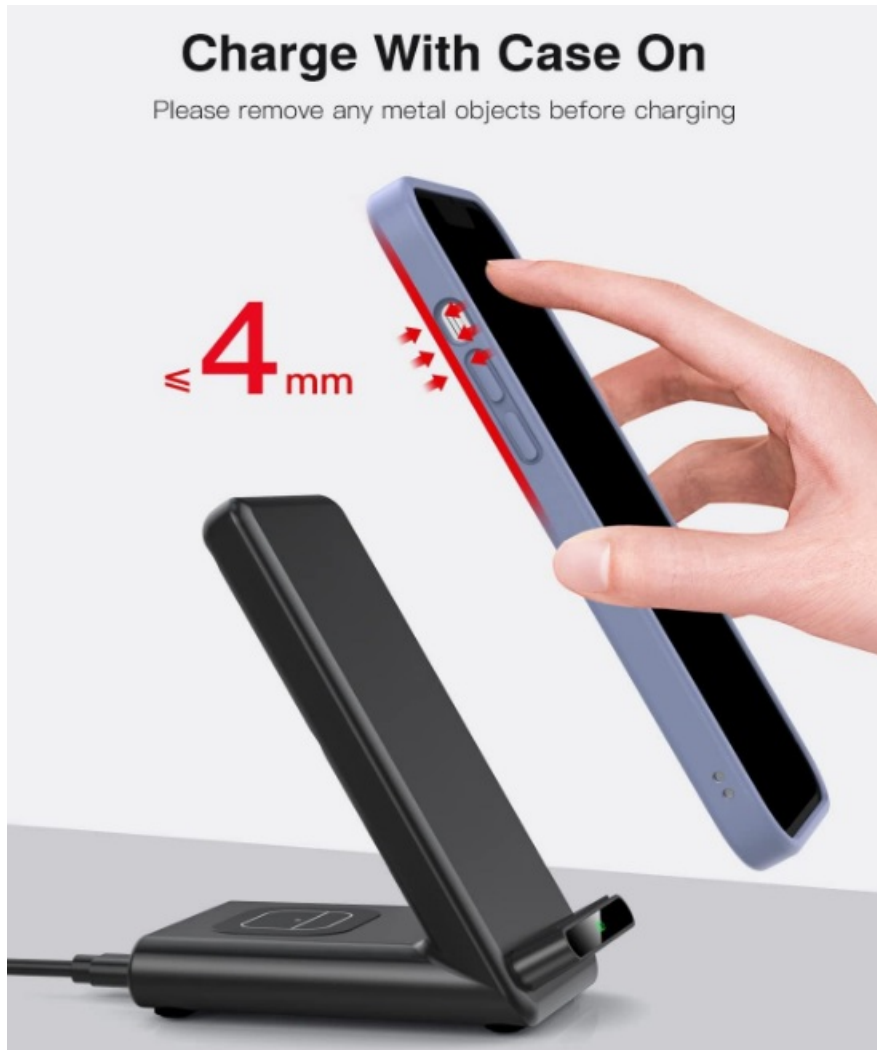

3. **Clever LED Indicators:** The stand has clever LED indicators that show how charged each gadget is. This feature lets you see at a glance if the devices are charging, fully charged, or if there are any problems with the charging process. This makes it easy to keep an eye on your devices.

4. **Anti-slip Design:** The QKXC X3 has a charging pad and a grippy bottom that keep your devices from moving around on the stand. This keeps your iPhone, Apple Watch, and AirPods safely in place while they charge, even if you move around.

5. **Compatible with All Qi-Enabled Devices:** This charging stand works with all Qi-enabled devices, so it's great for iPhones, Apple Watches, and other devices like Samsung Galaxy phones. It can wirelessly charge iPhones from the iPhone 8 series up to the iPhone 16 series. It also works with Apple Watch Series 3 and later, as well as AirPods Pro and AirPods 2/3.

6. **Efficient Space Management:** The QKXC X3 is small and doesn't take up much room. Its base is only 2.7 x 3.5 inches, so it doesn't take up much room on your desk or table. Because it takes up little space, it helps you keep your space clean and organized, making more room for other important things.

7. **Heat Dissipation System:** The QKXC X3 has an improved heat dissipation system that keeps the stand cool while it charges. This makes sure that charging is safe and effective. This method keeps the stand and devices from getting too hot, which makes the charger and your devices last longer.

8. **Safe Charging:** The QKXC X3 has multiple safety measures that make sure your devices are charged safely. Some of these are safety against too much power, too much voltage, too high of a temperature, and short circuits. It also has foreign object recognition, which finds anything that is blocking the charging process and stops damage.

9. **Foldable Watch Charger:** The QKXC X3 comes with a magnetic watch charger that you can fold up and store.

This helps keep your Apple Watch safely in place while it charges. Because it folds up, it's very convenient, so you can take it with you when you travel. It's easy to use right out of the box because you don't have to run anything else.

10. **Charging in Both Vertical and Horizontal Positions:** The QKXC X3 has two charging coils, so you can charge your devices in either portrait or landscape mode. This gives you more options for how to charge your phone, so you can watch content, answer calls, or use Face ID to open it while it's charging.

11. **Case-Friendly Design:** The QKXC X3 charge stand can hold devices with cases that are up to 4 mm thick. You don't have to take off your phone case before charging as long as it doesn't have any metal or magnetic parts that could get in the way of wireless charging.

12. **Wide Compatibility**: The QKXC X3 works perfectly with many Apple products, such as the Apple Watch Series 3 to Ultra and the AirPods Pro 2. It also works with all iPhone models, from the iPhone 8 to the newest iPhone 16 series. This means you can use one charger to charge a lot of different devices.

13. **Design That Saves Space:** The design that saves space keeps all of your gadgets in one central place, which makes charging easier. The vertical layout makes things less crowded while still keeping each item safe and easy to get to.

14. **Sleep-Friendly:** The QKXC X3 is made to give off little light, so it won't wake you up at night. It gives off a soft glow that makes it easy to keep an eye on your charging devices without being too bright at night.

15. **Eco-Friendly Charging:** The stand is made with energy-saving features that make sure your devices are charged without using too much power. That option is environmentally friendly and helps you lower your impact on the world while still providing a fast-charging answer.

Usage

1. **Setup**: Place the **QKXC X3** on a flat, stable surface such as a desk, nightstand, or table.
2. **Place Devices**: Position your iPhone, Apple Watch, and AirPods on their designated charging pads. Ensure the devices align properly for efficient charging.
3. **Connect Power Source**: Use the included power adapter and USB Type-C cable to connect the charging stand to a power source. Plug it into an AC outlet.

4. **Monitor Charging**: The LED indicators will show the charging status of each device, turning green when fully charged.
5. **Charging Completion**: Once your devices reach full charge, the LED indicators will show that charging is complete, and you can remove them from the stand.

Care and Maintenance

- **Cleaning**: Wipe the **QKXC X3** with a soft, dry cloth to keep it free of dust and dirt. Avoid using harsh chemicals or abrasive materials that may damage the surface.
- **Cable Maintenance**: Regularly check the USB Type-C cable for any signs of wear or damage. If the cable becomes frayed or damaged, replace it immediately to ensure safe charging.
- **Proper Storage**: When not in use, store the charging stand in a dry area away from excessive moisture or heat.
- **Keep Charging Pads Clean**: Make sure the charging pads are free from debris to maintain optimal charging efficiency.

Troubleshooting

1. **Devices Not Charging**:
   - Ensure that the **QKXC X3** is plugged into a working power outlet.
   - Check that the devices are properly aligned on the charging pads. If necessary, adjust the position slightly for better alignment.
   - Ensure that your devices support Qi wireless charging. If not, use the appropriate charging cable.
2. **Slow Charging**:
   - Check if the devices are in thick cases, as this can interfere with wireless charging. Remove any thick cases to improve charging efficiency.
   - Ensure that the adapter and cable are providing the required power output (18W adapter is recommended for optimal charging speed).
3. **LED Indicator Not Lit**:
   - Check the power connection to make sure the charging stand is receiving power.
   - Ensure that the devices placed on the charging stand are Qi-compatible and properly positioned.
4. **Overheating**:
   - Make sure the stand is placed in a cool, well-ventilated area. Avoid placing it on surfaces that trap heat.
   - If the charging stand becomes hot to the touch, unplug it and allow it to cool down for a few minutes before using it again.

Pros and Cons

Pros	Cons
Compact and space-saving design	Limited compatibility with non-Apple devices
Simultaneous charging for multiple devices	Requires specific positioning for optimal charging
Built-in safety features	May not work well with thick cases

Warranty

The QKXC X3 comes with a one-year warranty covering manufacturing defects. Ensure you keep your purchase receipt for warranty claims.

FAQs

What is the maximum charging speed supported by the QKXC X3?

The QKXC X3 supports up to 15W fast charging for iPhones, ensuring quick and efficient power delivery.

What is the input voltage for the QKXC X3 charging stand?

The QKXC X3 has an input voltage of 9V for optimal charging efficiency.

How do the LED indicators work on the QKXC X3?

The QKXC X3 features smart LED indicators that show the charging status of each device, so you can easily monitor the progress of your devices while they charge.

What is the material of the QKXC X3 charging stand?

The QKXC X3 features a durable, sleek design that ensures stability and longevity, with anti-slip silicone pads to keep your devices in place.

What is the benefit of the foldable watch charger on the QKXC X3?

The foldable watch charger on the QKXC X3 ensures that your Apple Watch stays securely in place while charging and makes the stand easy to pack for travel.

How does the QKXC X3 compare to other charging stands on the market?

The QKXC X3 stands out due to its 3-in-1 design, fast charging support, universal compatibility, and built-in safety features, offering an all-in-one solution for Apple and other Qi-enabled devices.
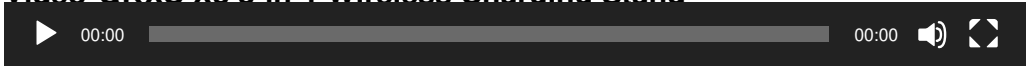

What devices are compatible with the QKXC X3 3-in-1 Wireless Charging Stand?

The QKXC X3 is compatible with Qi-enabled devices such as the iPhone 16/15/14/13/12 series, Apple Watch Series Ultra 10/9/8/7/6/SE, and AirPods Pro 2/3 with a wireless charging case.

How many devices can the QKXC X3 charge simultaneously?

The QKXC X3 can charge three devices at once: an iPhone, an Apple Watch, and AirPods, all on one stand.
