QQT

**QQT USB Rechargeable Handheld Fan**

## INTRODUCTION

The QQT USB Rechargeable Handheld Fan is a stylish and effective way to cool off, made to make you feel better wherever you are. This fan is great for use at home, in the office, or while traveling because it is small and can be folded up. It's portable and only weighs 4 ounces, so it doesn't lose any efficiency. This fan runs on a rechargeable battery and has four speeds that can be changed. It takes only 20 decibels of noise, which makes it perfect for beds or offices that need to be quiet. The 5-watt fan has 7 blades that work together to make a strong airflow of 500 cc/s and speeds of up to 7200 RPM. It has a long-lasting battery that can cool for hours and a USB Type-C port for fast charging. The QQT Handheld Fan, which came out in 2024 and costs only \$7.99, is a cheap way to stay cool.

## SPECIFICATIONS

<b>Brand Name</b>	QQT
<b>Built-In Media</b>	Handheld Fan, Manual, Charging Cable, Exquisite Box
<b>Price</b>	\$7.99
<b>Item Weight</b>	4 ounces
<b>Blade Length</b>	1.8 Inches
<b>Item Dimensions (D x W x H)</b>	1.18 D x 3.14 W x 6.61 H Inches
<b>Manufacture Year</b>	2024
<b>Voltage</b>	5 Volts
<b>Switch Type</b>	Push Button
<b>Indoor/Outdoor Usage</b>	Outdoor, Indoor
<b>Control Method</b>	Touch
<b>Light Type</b>	LED
<b>Connector Type</b>	USB Type C
<b>Reusability</b>	Rechargeable
<b>Is Product Cordless</b>	Yes
<b>Is Electric</b>	Yes
<b>Number of Power Levels</b>	4
<b>Main Power Connector Type</b>	2-Pin
<b>Number of Speeds</b>	4
<b>Noise Level</b>	20 dB
<b>Wattage</b>	5 watts
<b>Number of Blades</b>	7
<b>Air Flow Capacity</b>	500 Centiliters per Second
<b>Speed</b>	7200 RPM
<b>Power Source</b>	Battery Powered
<b>Room Type</b>	Kids Room, Bathroom, Bedroom, Living Room, Home Office
<b>Additional Features</b>	Portable, Fashion, Foldable
<b>Recommended Uses For Product</b>	Cooling
<b>Mounting Type</b>	Hand Fan
<b>Controller Type</b>	Button Control

## WHAT'S IN THE BOX

- Rechargeable Handheld Fan
- USB Cable

- User Manual

## FEATURES

- **Powerful Wind and 4 Speeds That Can Be Changed**: The fan has a copper brushless motor that is very efficient and 7 hydromechanically designed fan blades that move air quickly and efficiently. The fan has 4 speeds that can be changed: natural, slow, medium, and fast.

- **High-Performance Battery**: The fan's battery lasts a long time; based on the wind speed you choose, it can run for up to 20 hours on a full charge. The charge lasts five to seven times longer than most mini fans.
- **Flexible Use**: By opening the handle cover, it can be used as both a hand fan and a small desk fan. This makes it easy to use both inside and outside.
- **Small and easy to carry**: The fan fits in your pocket and is easy to carry in your bag because it only weighs 4 ounces (0.25 lb) and is 6.6 x 3.14 x 1.18 inches. This makes it great for travel and outdoor activities.
- **How Quiet It Is**: It only makes 20 decibels of noise, so you can enjoy cooling off without disturbing anyone else.
- **USB Rechargeable**: It has a 5V rechargeable battery and a USB Type-C connection that lets you charge it quickly and easily from any USB-enabled device.
- **Built-in LED Light**: It has an LED light that makes it more useful, especially in low-light situations, adding to its

purpose.

- **Ergonomic Handle:** The handle's ergonomic design makes it easy to hold and use by hand, so your hands won't get tired after a while.
- **7 Blades for Strong Airflow:** The 7 blades are shaped to distribute air evenly, so even at higher speeds, they produce strong and steady airflow.
- **Energy-Efficient:** This fan only uses 5 watts of power, so it is energy-efficient and cheap to use all the time.
- **Multiple Room Use:** It's great for cooling beds, living rooms, kids' rooms, and home offices, among other rooms.
- **Stylish and Practical Design:** The fan's sleek look includes a makeup mirror that lets users touch up their makeup while they're on the go.
- **Multifunctional Summer Gift:** It comes in a beautiful box and is a great summer gift for men, women, kids, and people who care about fashion.
- **Foldable Design:** The fan can be folded up for easy storage and to save space, which makes it even easier to carry.
- **Low-Speed Mode for Comfort:** The slow speed setting creates a gentle breeze, ideal for cooling off without too much movement.

**Battery technology upgrade**

**Convenient Charging**

power bank Adapter Laptop Car charger

**At least 15** hours of continuous use!

- **Unbox the Fan:** Carefully take the QQT USB Rechargeable Handheld Fan, the charging cable, and the user guide out of the box.
- **Before the first use, charge:** Connect the fan to a USB Type-C cord and charge it fully using a USB power adapter or a computer port. It will take about two to three hours to fully charge.
- **To turn on the fan, press the button on the handle:** This will take you through the four speed choices.
- **Change Speed:** Press the button several times to go from normal airflow to slow, medium, or fast airflow.
- **Change to Desk Mode:** To use the fan as a desk fan, open the cover on the handle and lay the fan flat on a flat surface.
- **Watch the Battery Indicator:** While charging or using the fan, keep an eye on the battery indicator light to make sure the battery doesn't die suddenly.
- **Choose Speed Based on Your Needs:** Pick the wind speed you want based on the situation (low for home use, high for outdoor activities, etc.).
- **LED Light Turn On:** If you need more light, turn on the built-in LED light to make things easier to see.
- **The built-in makeup mirror can be used for touch-ups while you're on the go:** Just open the handle cover.
- **Mounting Options:** You can hold the fan in your hand or put it on a flat surface to use it as a small tabletop fan.
- **Traveling:** Keep the fan in your pocket, bag, or backpack so you can use it easily on trips, in parks, or at outdoor events.
- **Store When Not in Use:** When not in use, fold the fan up and put it in a box, bag, or luggage.
- **For charging when you're not near a wall outlet:** You can connect the fan to a power bank or other USB-enabled gadget and charge it that way.
- **Before you use a soft cloth to clean the fan's blades and handle:** Make sure the fan is turned off.
- **Safe Storage:** To keep the motor and battery from getting damaged, keep the fan in a dry, cool place when not in use for a long time.

## CARE & MAINTENANCE

- **Regular Cleaning:** Use a dry or slightly wet cloth to wipe the fan blades and outside of the unit to get rid of dust and other particles.
- **Stay away from water:** To keep the fan from getting electrical damage and rust, keep it away from water and wetness.
- **Regularly Charge:** If you're not going to use the fan for a long time, charge it every two weeks to keep the battery healthy.
- **To get a better clean:** Use a soft brush to get rid of dirt on the fan blades or in the air areas.
- **Don't overcharge:** When the battery is fully charged, unplug the fan to keep it from hurting it and to extend its life.
- **Check for Blockages:** Make sure to check the fan blades and motor area often for any dirt or other things that might be blocking the flow of air.
- **Keep in a Cool, Dry Place:** Keep the fan in a cool, dry place when not in use to keep it from getting too hot or wet.
- **Inspect for Damage:** Check the fan's blades, motor, and USB charge port for signs of wear and tear every so often.
- **Carefully handle the fan:** Don't drop it or hit it with something heavy to protect the motor and other fragile parts.
- **Use Only with Recommended Chargers:** To keep the fan and battery from getting damaged, only charge it

with the USB wire that came with it or a charger that works with it.

- **Don't put the fan near sources of high heat or direct sunlight:** This will keep the batteries from getting damaged and the plastic from warping.
- **Keep the Area Around the Blades Clean:** Make sure there is no dust or buildup around the fan blades, as this can make the movement less effective.
- **When Batteries Need to Be Replaced:** If the fan's battery can't hold a charge anymore, you might want to get a new one that is approved by the manufacturer.
- **If you want to keep the fan safe:** Don't use it while it's charged. This will keep it from overheating or breaking.
- **How to Store the Fan for Long-Term Use:** If you're going to be putting the fan away for a while, fully charge it first, then turn it off and put it somewhere cool and dry.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
The fan does not turn on	Battery is drained	Charge the fan fully before use
The fan is not charging	Faulty USB cable or port	Check the cable and try a different USB port
Weak airflow	Obstruction in the fan blades	Clean the fan blades to remove dust or debris
The fan produces strange noise	Foreign particles inside the fan	Inspect and clean the internal components
The fan doesn't hold a charge	The battery is worn out	Replace the battery or contact customer support
The fan turns off unexpectedly	Overheating or low battery	Allow the fan to cool down and recharge
The fan is shaking or vibrating excessively	Loose or damaged internal parts	Check for loose components or damage
Buttons are unresponsive	Electronic malfunction or dirt buildup	Reset the fan or clean the control buttons
Charging indicator not lighting	The USB cable is not properly connected	Ensure the cable is securely connected
Fan speed is stuck on one level	Control circuit malfunction	Reset the fan or try adjusting the settings again
The fan doesn't fold easily	The mechanism is jammed or obstructed	Carefully remove any blockages and adjust the fold
The battery indicator doesn't work	Faulty indicator circuit	Monitor charging manually or contact support
Fan works intermittently	Internal connection issue	Inspect internal wiring or seek repair
A fan blows in the wrong direction	Adjust the fan's tilt	Manually adjust the fan's tilt position
The fan is not operating at maximum speed	A low battery or wrong speed setting	Charge the fan fully and check speed settings

## PROS & CONS

## Pros:

- Ultra-lightweight design for easy portability.
- 4-speed settings to customize cooling needs.
- Quiet operation (20 dB), ideal for bedrooms or offices.
- Rechargeable with USB Type-C for quick and convenient charging.
- Stylish, foldable design that makes it easy to store.

## Cons:

- Limited airflow range compared to larger fans.
- Maximum speed might not be powerful enough for outdoor use on hot days.
- No additional features like oscillation or digital display.
- Charging time could be longer than expected.
- Can become warm with extended use.

## WARRANTY

The QQT USB Rechargeable Handheld Fan comes with a **1-year limited warranty**. The warranty covers defects in materials and workmanship under normal use. It excludes damages from misuse, accidents, or unauthorized repairs. For warranty claims or support, contact QQT's customer service team.

## FREQUENTLY ASKED QUESTIONS

What is the price of the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan is priced at \$7.99.

What is the weight of the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan weighs 4 ounces, making it lightweight and easy to carry.

What are the dimensions of the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan has dimensions of 1.18 inches (D) x 3.14 inches (W) x 6.61 inches (H).

How many blades does the QQT USB Rechargeable Handheld Fan have?

The QQT USB Rechargeable Handheld Fan is equipped with 7 blades for optimal airflow.

What is the maximum speed of the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan reaches a maximum speed of 7200 RPM.

How many power levels does the QQT USB Rechargeable Handheld Fan offer?

The QQT USB Rechargeable Handheld Fan has 4 power levels for customizable cooling.

What is the noise level of the QQT USB Rechargeable Handheld Fan?

The noise level of the QQT USB Rechargeable Handheld Fan is 20 dB, ensuring quiet operation.

What type of switch does the QQT USB Rechargeable Handheld Fan use?

The QQT USB Rechargeable Handheld Fan uses a push button switch for operation.

What is the wattage of the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan operates at 5 watts.

What type of connector does the QQT USB Rechargeable Handheld Fan use for charging?

The QQT USB Rechargeable Handheld Fan uses a USB Type C connector for charging.

What is the airflow capacity of the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan has an airflow capacity of 500 centiliters per second.

What additional features does the QQT USB Rechargeable Handheld Fan have?

The QQT USB Rechargeable Handheld Fan is portable, fashionable, and foldable.

What power source does the QQT USB Rechargeable Handheld Fan use?

The QQT USB Rechargeable Handheld Fan is battery powered for convenience.

What rooms are suitable for using the QQT USB Rechargeable Handheld Fan?

The QQT USB Rechargeable Handheld Fan is ideal for rooms such as kids' rooms, bathrooms, bedrooms, living rooms, and home offices.

What type of control does the QQT USB Rechargeable Handheld Fan use?

The QQT USB Rechargeable Handheld Fan is controlled using a button control mechanism.
