R-Go Compact Ergonomic Keyboard Instruction Manual

R-Go Compact Ergonomic Keyboard

Contents

Congratulations with your purchase!

Our ergonomic R-Go Compact keyboard offers all the ergonomic features you need to type in a healthy way. Thanks to the light keystroke, minimal muscle tension is needed while typing. Its thin design ensures a relaxed, flat position of hands and wrists while typing. When using both keyboard and mouse at the same time, your hands always stay within shoulder width. This natural posture reduces muscle tension in your shoulder and arm and prevents RSI complaints. #stayfit

System requirements/Compatibility: Windows XP/ Vista/10/11
