## Packaging Contents

## Charging Mode

### Wired Charging

### Wireless Charging

Wireless Charging Module WM1 (to be purchased separately)

Lower Power Indication: Red indicator flashes (twice a second for 5 seconds) Charging: White indicator goes on  
 Fully Charged: White indicator goes off  
 Do not use wired connection during wireless charging, which will activate wired charging at the same time, resulting in product damage.

## Connection mode

2.4G Mode

The mice can connect up to 6 receivers. The retail packaging includes 2 receivers are already connected to the mouse. Please purchase extra 4 receivers which needs to be paired by user (Please visit [www.rapoo-eu.com](http://www.rapoo-eu.com) for pairing steps)

**Connecting:** The mouse connection indicator flashes green for 5 times.

**Connected:** The mouse connection indicator goes off in green.

## Bluetooth mode

### Connecting Device A

Press and hold the Bluetooth button more than 3 seconds for pairing: the green flashes rapidly twice a second; the light goes off if pairing is failed after 2 minute.

### Connecting Device B and C

**MT760L**

**MT760M**

Briefly press the Bluetooth button for switching: the green light flashes slowly once a second; the light goes off if pairing is failed after 30 seconds.

Press and hold the Bluetooth button more than 3 seconds for pairing: the green flashes rapidly twice a second; the light goes off if pairing is failed after 2 minutes.

#### Switching among Bluetooth devices

Briefly press the Bluetooth button to change among 3 paired devices.

#### Wired Mode

Wired Connection: The green light of the connection indicator is on for 3 seconds, while the white light of the power indicator stays on, and charging is carried out during connection and use.

## Install driver

## M+ Cross-device transmission function

File transmission can be done by copying and pasting under Windows when mice is connected with 2.4G, all paired devices are installed with driver and connected with same LAN in the same domain. File transmission doesn't support drag and drop among devices.

## Safety Instruction

#### Recycling Information

**Disposal of Packaging Materials:** The packaging materials have been selected for their environmental friendliness and are recyclable.

Dispose of packaging materials which are no longer needed in accordance with applicable local regulations.

**Disposal of the Device:** The symbol above and on the product means that the product is classed as Electrical or Electronic equipment and should not be disposed with other household or commercial waste at the end of its useful life. The Waste of Electrical and Electronic Equipment (WEEE) Directive has been put in place to recycle products using best available recovery and recycling techniques to minimise the impact on the environment, treat any hazardous substances and avoid the increasing landfill. Contact local authorities for information on the correct disposal of Electrical or Electronic equipment.

**Disposal of Batteries:** Used batteries may not be disposed of in normal household waste. All consumers are required by law to dispose of batteries at a collection point provided by their local community or at a retail store. The purpose of this obligation is to ensure that batteries are disposed of in a non-polluting manner. Only dispose of batteries when they are fully discharged. Cover the poles of partially discharged batteries with tape to prevent short circuits.
