Mounting template printing instructions

Caution: Ensure mounting template is printed true-to-scale

Before modifying mounting surface, ensure actual printed template matches the measurements provided in the template document.

Configuring Adobe Acrobat to use Raymarine recommended print settings

Adobe Acrobat must be configured correctly to ensure mounting templates print true-to-scale. With the mounting template document open in Acrobat Reader:

1. Select File→ Properties.
2. Make a note of the Page Size.
3. Select File→ Print.

The print dialog is displayed.

4. Select Properties.
5. Ensure the paper size is set to the same dimensions as the page size identified in Step 1.
6. Click OK to return to the print settings dialog.
7. Ensure “Size Options” and “Page Scaling” options (as appropriate) are set to “Actual Size” or “None”.
8. Ensure the “Auto-Rotate and Center” or “Auto portrait / landscape” option (as appropriate) is NOT ticked.
9. Select the relevant orientation to match the template document orientation (“portrait” or “landscape”; most templates are landscape).

NOTE: This document may NOT print true to scale. Before modifying mounting surface, ensure printed template matches the measurements provided.
