Warning
Do not try to open Smart mirror in case of electric shock

Note: In case of electric shock, please do not try to open Smart mirror. When malfunction happens, please consult a profession before you open Smart mirror .

This is a sign of high voltage danger. Any contact with the internal parts can be extremely dangerous.
This is for important notes of how to maintain Smart mirror.

- Please keep Smart mirror away from any heat or under direct sun light.
- Please keep Smart mirror away from anything that can generate heat, such as candles, ashtrays, incensation, combustible gas or explosive substance.
- Please do not overload your wall sockets, extension power cables.
- Please place the power cable properly without anything pressing again the power cable.
- For safety reasons, please unplug Smart mirror power in storm weather or when you won't be using Smart mirror for a long time.
- Please use proper direct current supply for Smart mirror. Make sure your local DC power is within safety range.
- In case of any electric shock, please do not insert any metal object into Smart mirror sockets.
- Please make sure power jack is plugged in tightly into your power socket. Unplug power jack when you disconnect Smart mirror.
- Please do not touch Smart mirror's power cable with wet hands.

- In case of any malfunction, especially when there's unusual sound or smell coming out of Smart mirror, please unplug the power and contact your supplier immediately.
- If you'll be leaving Smart mirror unused for a very long time or traveling with our senior family members, children and people with disabilities at home, please make sure to unplug Smart mirror.
- Too much dirt on the power socket or cable might generate heat and cause insulation aging, please keep it clean in case of electric shock and fire.
- Please make sure your power socket is well grounded in case of electric shock or damage to Smart mirror.
- To unplug Smart mirror is to unplug from your power socket, for convenience, we recommend you to use power socket with its own ON/OFF switch.
- Please do not allow children to play with Smart mirror.
- Please install Smart mirror in a safe place, any wobble or tilt installation puts Smart mirror in a vulnerable position.
- In case of fall and damage to Smart mirror, please unplug the power and contact your local supplier immediately.
- Unplug Smart mirror before you clean it. Use soft and dry cloth to wipe it clean. Do not use any chemical solution on Smart mirror surface for it might erode Smart mirror.
