This video is a step-by-step process on how to install or upgrade the Razer Chroma App. To install Razer Chroma App, you need the following:

Windows 10 or 11 64-bit Operating System Valid e-mail, software download, license acceptance, and an internet connection to activate full features and software updates. Before we proceed, be aware that installing the application will uninstall Razer Synapse 3. Let's get started. Go to the Razer Chroma App installer download page by clicking the link in the description, then click "DOWNLOAD NOW". Once the download is complete, run the installer.

Click "Yes" if the User Account Control window pops up to proceed. Click "CONTINUE" to agree to the Razer Software License Agreement. Click "INSTALL". This may take a few minutes to complete. Once the installation is complete, click "LAUNCH". Log in with your Razer ID to take full advantage of the Razer Chroma features. A prompt will appear if the local settings do not match what is stored in the cloud. Select your preferred settings or suspend for later. The Razer Chroma App offers a brief tour of its features. Click "START TOUR" to begin, or scroll down to skip and explore the available effects, connected Chroma devices, modules, and online services. That's it! You have successfully installed the Razer Chroma App.
