2. Find the four-digit code for your brand of TV, VCR, DVD, satellite receiver, cable box, or digital TV converter in the enclosed code lists.
3. Press and hold the CODE SEARCH key until the indicator light turns on. Release the CODE SEARCH key.
4. Press and release the TV, VCR or SAT·CBL·DTC key. The indicator light blinks and then remains lit.

7. Aim the remote at the component and press the ON•OFF key. The component should turn off.

Note: If your component does not respond, try all the codes for your brands. If the codes do not work or your brand is not listed, try the Code Search Method that follows.

Programming With Code Search

If your TV, VCR, DVD, satellite receiver, cable box, or digital TV converter does not respond after you have tried all the codes for your brands, or if your brand is not listed, try searching for your code via the Code Search Entry Method.
