RECCAZR KW75 Triple Mode Mechanical Keyboard with Dual Operating Systems

Product Summary

The KW75 Triple Mode Mechanical Keyboard is an 81/82 keys US/UK layout mechanical keyboard that comes with a built-in silicone cushion. It features hot-swappable mechanical switch, detachable TYPE-C charging cable, triple connection modes & dual operation systems, full keys anti-ghosting, and all keys programmable by driver.

Product Design

The keyboard has a sleek design and is compact in size. It weighs around 0.6kg.

FN Combined Keys & Backlight Management

The keyboard has multimedia function keys that can be activated by pressing the FN key and a corresponding key from F1 to F12. It also has RGB LED backlight control that can be managed by pressing the FN key and a corresponding key.

FN Combined Multimedia Function

- FN + F1= Open Music App
- FN + F2= Reduce Volume
- FN + F3= Increase Volume
- FN + F4= Mute
- FN + F5= Stop
- FN + F6= Previous Track
- FN + F7= Play/Pause
- FN + F8= Next Track
- FN + F9= Open Email
- FN + F10= Go to Homepage
- FN + F11= Open My Computer
- FN + F12= Open Calculator

RGB LED Control

- FN + PGDN: Turn On/Off the Backlight (make sure the backlight is on before adjusting its settings)
- FN + 2: Green Backlight
- FN + 3: Blue Backlight
- FN + 4-8: Self-Defined Backlight Mode
- FN + PGUP: Backlight Setting & Save

When you press FN+4 to 8 to enter into the corresponding mode, it would start self-setting after pressing FN+PGUP. Press the same key continuously until the backlight color changes to the specified one, then start setting other keys. If all the keys setting is finished, please press FN+PGUP to save. The CapsLock indicator keeps flashing while setting the backlight, and it would be off after the setting is finished and saved.

Combined Control Function

- FN + ESC: Restore Factory Defaults
- FN + Win: Lock the Windows Key and the backlight turns white

Operation Systems Instructions

The keyboard has two switches on the top left side that are used to change the connection mode and operation system.

2.4G Wireless Connection

Change to 2.4G wireless connection mode while switch to the left, and the 2.4G indicator turns on. Plug the receiver into USB output and it starts the connection automatically.
