REDBACK 4582 10 Zone Monitor Panel User Guide

Contents

REDBACK 4582 10 Zone Monitor Panel

Overview

A handy aid to test and adjust 100V line PA amplifier output levels. Capable of monitoring 10 individual amplifiers (electrically isolated from each other to prevent cross talk). Audible and visual monitoring is available from the built in speaker and VU meter. Dual rear panel screw terminals are provided to enable through line connection of each amplifier to its respective speaker circuit.

Key Features

- Australian made
- 10 year manufacturer warranty with local product support
- 2 Unit 19" rack mount
- Monitors up to 10 100V line amplifiers

- Analogue VU output level display

- No power supply required

- In-built monitor speaker

- Speaker volume control

- Minimal circuitry for low noise
