Product Information

FCC Warning: This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference,
2. this device must accept any interference received, including interference that may cause undesired operation.

- **Changes or modifications:** Not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- **FCC Radiation Exposure Statement:** The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
- **ISED Warning:** This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science, and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:
- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

Specifications

- **Compliance:** FCC Part 15, ISED license-exempt RSS(s)
- **Radiation Exposure:** General RF exposure compliant
- **Usage:** Portable exposure without restriction

Product Usage Instructions

Step 1: Power On

- Ensure the device is charged and press the power button to turn it on.

Step 2: Pairing

- Follow the device-specific instructions to pair it with other devices if required.

Step 3: Operation

- Use the device as intended, ensuring it does not interfere with other devices and accepting any incoming interference.

Step 4: Power Off

- To turn off the device, press and hold the power button until it shuts down.

FAQs

Q: What should I do if the device causes interference?

A: If the device causes interference, try moving it away from other electronic devices. Ensure proper distance and positioning for optimal performance.

Q: How do I know if the device is compliant with regulations?

A: Check the user manual or product specifications to confirm compliance with FCC and ISED regulations.

Dear customer,

- Thank you for choosing RedThunder and hope our products will bring you a pleasant experience.
- If you have any questions about our products, please do not hesitate to contact us, we will try our best to solve all problems for you.

Pairing connection method

Q: The keyboard/mouse is not working, what can I do?

- **A:** Charge the keyboard/mouse.
- Turn on the power switch.
- Install the USB receiver to the host computer.
- If it still doesn't work, you need to pair it again.
- The following operations are not required under normal circumstances

Keyboard pairing connection method

1. Restart the keyboard power and take out the USB receiver.
2. Press the [Esc] and [K] Keys at the same time, then the indicator flashes, and plug the USB receiver in the meantime. The indicator light will turn off after the above action.
3. Press any other key to activate, and finish connecting.

Mouse pairing connection method

1. Remove the receiver, press the wheel and right side button of the mouse at the same time, then turn the bottom switch to the "Turn on withlight" position(*), and the light will slowly flash.
2. Plug the USB receiver into the device.
3. The mouse light will flash quickly, then finish pairing.
   - The above operations may succeed or fail, and you can try again if you fail.

Mouse wheel — Right button

Product Instructions

1. The keyboard and mouse share a receiver, which is located at the bottom of the mouse.
2. Before use, please insert the USB receiver and turn on the switches of the keyboard and the mouse;(The keyboard and mouse will light up only if the USB is plugged in.)
3. When the battery is too low, the keyboard and mouse will have a little delay, please charge them in time, Please fully charge before using them for the first time.
4. The red indicator light of the keyboard and the blue indicator light of the mouse will light up when charging, and the indicator light will go out when fully charged.

Key Description

1. **LED:** Turn on/off the backlight or switch the backlight color.
2. **FN+LED:** Switch between 1-color and 3-color breathing mode.
3. **FN+PU/PD:** increase/decrease backlight brightness.
4. **FN++/-:Speed** up/slow down breathing rate.
5. **FN+W:** Exchange WASD and arrow keys.

6. **FN+WIN:** WIN key lock.

7. **FN+(F1-F12):12** multimedia combination keys.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference,

2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used per the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable

exposure conditions without restriction.

ISED Warning

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science, and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

ISED Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used installed and operated with a minimum distance of 0mm between the radiator and your body.
