Rehan electronics i-Reader 2 Text-To-Speech Device

i-Reader 2

The all new i-Reader 2 represents the next generation of our i-Reader text-to-speech series. Incorporating many new features and additional languages the new i-Reader 2 is now even more simple to use and set up. Incorporating a new 8MP camera which allows for increased scanning accuracy and camera arm that is simple to set up, you can capture a full A4 or letter page. The higher specifi cation camera also allows for more languages to be recognized. The i-Reader 2 comes with a built-in battery so you can use it on the go as easily as you. Together with the popular functions of the original i-Reader, the i-Reader 2 is a superior, portable and user friendly text-to-speech experience, with natural male or female voices in multiple languages. The large tactile buttons make navigation of all functions of the device easily accessible to all, without the need of extra hardware.
