- Operating voltage: 230V
- Only suitable for indoor use
- Light bulb not included
- Light bulb max. 40W
- Dimensions: 35 cm, Ø 15 cm

Light Piet

Cable light

Application

Before commissioning, screw a standard household E27 light source with a maximum output of 40W into the lamp socket. Insert the mains plug into a mains socket (230V) and switch on the light using the light switch integrated in the cable.

Maintenance

To replace the light source:

1. Disconnect the light from the power supply.
2. Allow the light to cool down completely before removing the bulb.
3. Ensure that the replacement bulb corresponds to the parameters of the luminaire in terms of type and wattage.
4. Remove the old bulb and insert the new one.

Safety Instructions

Read the following safety instructions carefully:

- Please only use the appliance with the intended operating voltage of 230V.
- **Caution!** Parts of the appliance may become hot during use.
- Do not expose the device to excessive heat or cold.
- Do not expose the device to moisture.
- Do not drop the device.
- Not suitable for children.
- Do not disassemble, repair or modify the device.
- In the event of visible damage to the device, plug or cable, do not use the device and disconnect it from the

power supply.

- Disconnect the lamp also from power supply if the device will not be used for a long time.

WEEE – Waste Electrical and Electronic Equipment Directive Waste electrical products should not be disposed of with household waste. You avoid environmental damage with the proper disposal.

The object of the declaration is in conformity with the Union harmonization legislation:
