Remote Controls RR121-3BT Remote Control Fobs

Model:RR121-3BT

Step by Step How to Programming Instructions

This vehicle is not on board programmable and requires a qualified professional to program smart key remote fobs.

- 1. Locate an automotive locksmith in your area.
- 2. If your vehicle is still mobile, it may save you money by driving to the locksmith instead of having them come to you.
- 3. The locksmith will then hook up specialized computer equipment to your vehicle in order to program the smart key remote fob.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. This device must accept any interference received, including interference that may cause undesired operation.
