Remote Pro RPR100-C-002 CSI Classic CSI-1 Upgrade Receiver Kit Installation Guide

Installing Receiver to CSI Classic CSI-1 Motor

1. **TURN OFF THE POWER OF THE MOTOR FROM THE POWERPOINT**
2. View the diagram below and ensure that it matches the back of your motor.
3. Connect the black receiver cable to the PB.
4. Connect the blue receiver cable to GND.
5. Connect the brown receiver cable to 24V.
6. Turn the power back on and ensure the receiver powers up.
7. Your two new remotes have been pre-programmed to the receiver.

   Press button 1 on your new remote to ensure it can operate the door.

Coding new remotes

Please Note: Your original remotes will continue to work

1. Press the black learn button inside the receiver located next to the LED light until the LED illuminates.
2. Press and hold any button on your new remote until the LED flashes 3 times.
3. The remote is now coded, please test the remote to ensure it can operate the motor.
4. If you have more than one new remote, please repeat steps 1-3.

WARNING

To prevent possible SERIOUS INJURY or DEATH:

- The battery is hazardous: NEVER allow children near batteries.
- If the battery is swallowed, immediately notify a doctor.

To reduce the risk of fire, explosion, or chemical burn:

- Replace ONLY with the same size and type of battery
- DO NOT recharge, disassemble, heat above 100° C, or incinerate

The battery will cause SEVERE or FATAL injuries in 2 hours or less if swallowed or placed inside any part of the body.
