Introduce the NVR

Introduce the Cameras

NOTE:

- Different types of cameras are introduced in this section. Please check out the camera included in the package and check out the details from the corresponding introduction above,
- The actual appearance and components may vary with different models of products,

Connection Diagram

To ensure all components work properly, it is recommended that you connect every part and try to run the system before a final installation.

- Connect the NVR (LAN port) to your router with a network cable. Next. Connect the mouse to the USB port of the NVR.
- Connect the NVR to the monitor with a VGA or HDMI cable.

NOTE

There is no VGA cable included in the package.

- Connect cameras to POE ports on the NVR-
- Connect the NVR to a power outlet and turn on the power switch,

NOTE:

Some Reolink WiFi cameras also work with Reolink POE NVR For more information, visit <https://suppoftr.reolink.com> and search Make Reolink WiFi Cameras Work with Reolink PoE-NVRs

Set up the NVR System

A setup wizard will guide you through the NVR system configuration process, Please set a password for your NVR (for the initial access) and follow the wizard to configure the system.

'NOTE,

The password should be at least 6 characters, It is recommended that you note down the password and keep It in a secure place.

Access the System via a Smartphone or PC

Download and launch the Reolink App or Client software and follow the instructions to access the NVR-

- **On Smartphone**

Scan to download the Reolink App.

- **On pc**

Download path: Go to <https://reolink.com> > Support > App & Client

Mount Tips for the Cameras

- Do not face the camera towards any light sources.
- Do not point the camera toward a glass window. Or. It may result In poor Image quality because of the window glare by infrared LEDs, ambient lights, or status lights.
- Do not place the camera in a shaded area and point it towards a well-lit area. Or, it may result in poor Image quality, To ensure the best image quality. The lighting conditions for both the camera and the captured object shall be the same.
- To ensure better image quality, it is recommended to clean the lens with a soft cloth from time to time.
- Make sure the power ports are not directly exposed to water or moisture and not blocked by dirt or other elements.
- With IP waterproof ratings, the camera can work properly under conditions like rain and snow. However, it doesn't mean the camera can work underwater.
- Do not install the camera at places where rain and snow can hit the lens directly,
- The camera may work in extreme cold conditions as low as -250C because it will produce heat when powered on. You may power the camera indoors for a few minutes before installing It outdoors.

Troubleshooting

No video output on the monitor/ T

If there's no video output on the monitor from Reolink NVR. Please try the following solutions:

- TV/monitor resolution should be at least 720p or above,
- Make sure your NVR is powered on.
- Double-check the HDMI/VGA connection, or swap another cable or monitor to test.
- If it still doesn't work. please contact Reolink
- Support support@reolink.com

Failed to access the POE NVR locally

If you failed to access the POE NVR locally via mobile phone or PC please try the following solutions:

- Connect the NVR (LAN port) to your router with a network cable.
- Swap another Ethernet cable or plug the NVR to other ports on the router.
- Go to Menu System -> Maintenance and restore all settings-

If it still doesn't work, please contact Reolink Support support@reolink.com

Failed to access the POE NVR remotely

If you failed to access the POE NVR remotely via mobile phone or PC please try the following.

- Make sure you can locally access this NVR system.
- Go to NVR Menu Network -Y Network > Advanced and make sure that IJID Enable is selected.
- Please connect your phone or PC under the same network (LAN) of your NVR and see if you can visit any website to verify whether there is Internet access available,
- Please reboot your NVR and router and try again.

If it still doesn't work, please contact Reolink Support support@reolink.com.
