Set up the Camera on the App

Here is a guide on how to initially set up the camera via Reolink App.

Step 1. Tap the icon in the top right corner.

Note: If you've enabled the Add Device Automatically option on the App's Settings page, you can tap this device on the Devices page and turn to Step 3 directly.

Step 2. Scan the QR code on the back of the camera. You may tap Light to enable a flashlight when setting up the camera in a dark environment.

If the phone doesn't respond, please tap Input UID/IP and then manually type in the UID (16-digit characters under the QR code of the camera). Then tap Next.

Step 3. Create a login password for your camera. Then tap Next.

Device initialization

Step 4. Name your camera. Then tap Next.

Device initialization

Step 5. Initialization finished! You can start live viewing now.

Device initialization

Install the Camera

Following the excitement of setting up your TrackMix, you will face up the installation of the camera.

So we are here to help you with guides on how to mount the TrackMix camera on the wall or the ceiling. It's up to you.

Mount the Camera on the Wall

- Step 1. Stick the mounting hole template on the wall and drill holes correspondingly.
- **Step 2.** Screw the mount base to the wall using the screws included in the package.
- **Step 3.** You may control the camera to pan and tilt via Reolink App or Client to adjust the camera's direction.

Note: If you install the camera on a pretty hard surface such as drywall, use the drywall anchors included in the package.

Mount the Camera on the Ceiling

- Step 1. Stick the mounting hole template on the ceiling and drill holes correspondingly.
- **Step 2.** Install the mount base to the wall using the screws included in the package.
- **Step 3.** Adjust the camera's direction by controlling the camera to pan and tilt via the Reolink App or Client.

 $\textbf{Note:} \ \textbf{Use the drywall anchors included in the package if needed}.$
