## RETROFITLAB Mini H1 Plug and Play HID-Xenon Kit

## Product Information

### HID/Xenon Kit

The HID/Xenon Kit is a set of components designed to upgrade the lighting system of a vehicle. The kit includes ballasts and bulbs that produce a brighter and whiter light than standard halogen bulbs. The kit is designed to be plug and play, meaning that it can be easily installed without the need for any modifications to the vehicle's wiring or electrical system.

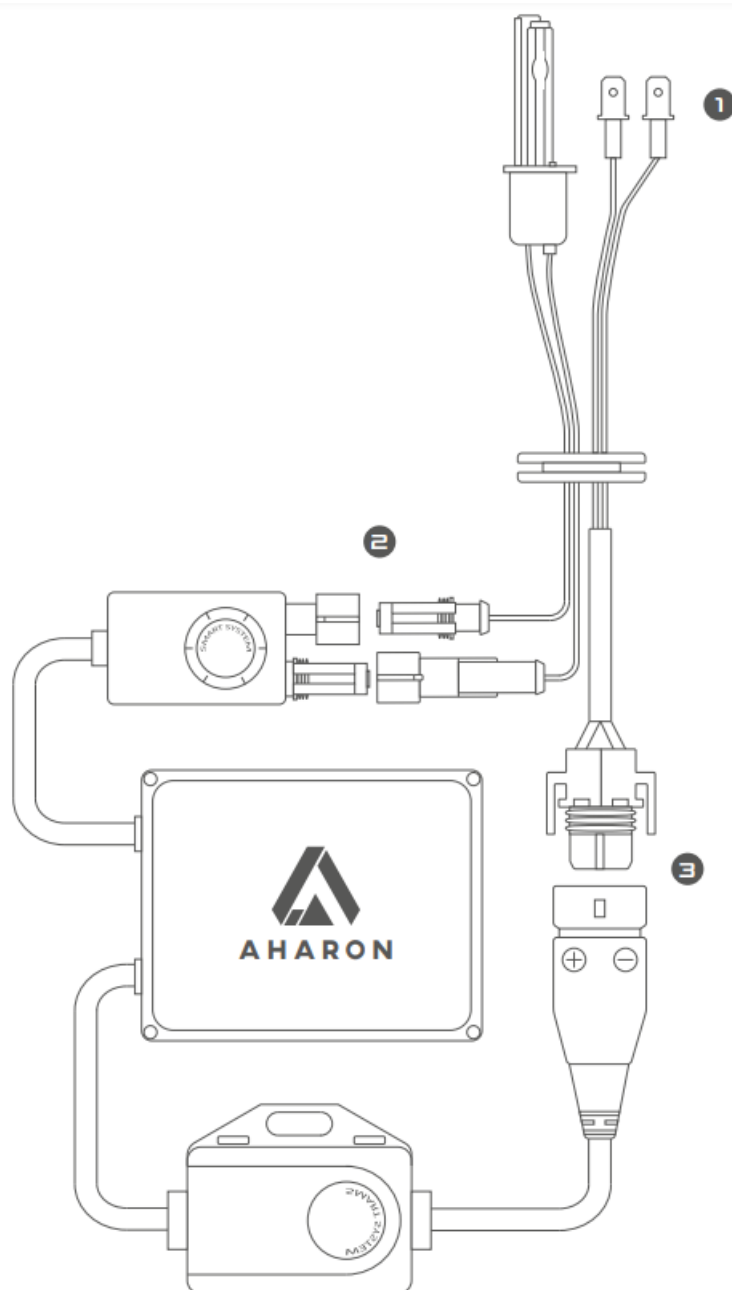

## **Product Usage Instructions**

Before beginning the installation process, ensure that the vehicle's electrical system is turned off.

1. Locate the connector for the low beam on the vehicle's headlight assembly.
2. Connect the ballast to the round (AMP) connectors on the HID/Xenon kit.
3. Connect the ballast to the oval (9006) connector on the HID/Xenon kit.
4. Repeat steps 1-3 for the other headlight assembly of the vehicle.
5. Once all connections are made, turn on the vehicle's electrical system and test the headlights to ensure they are functioning properly.

If there are any issues with the installation or performance of the HID/Xenon kit, refer to the troubleshooting section of the user manual or contact customer support for assistance.

## **INSTALLATION**

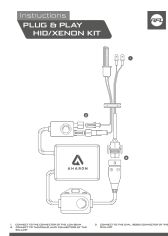

1. CONNECT TO THE CONNECTOR OF THE LOW BEAM
2. CONNECT TO THE ROUND (AMP) CONNECTORS OF THE BALLAST
3. CONNECT TO THE OVAL (9006) CONNECTOR OF THE BALLAST
