REV·A·SHELF®

REV-A-SHELF I-CTMB-0922 Top Mount Brackets

Product Information

The CTMB Series is a kit designed for use with Rev-A-Shelf Closet baskets. It includes the necessary parts and screws for installation.

Part List:

- X8 Euro Screw
- X4 Wood Screw

Tools Required:

- #2 Screwdriver

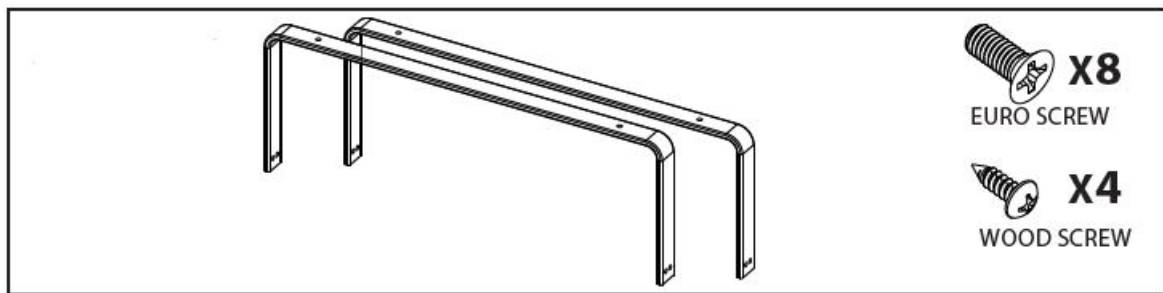

For any further assistance or inquiries, you can contact Rev-A-Shelf at (800) 626-1126 or visit their website at www.rev-a-shelf.com.

Product Usage Instructions

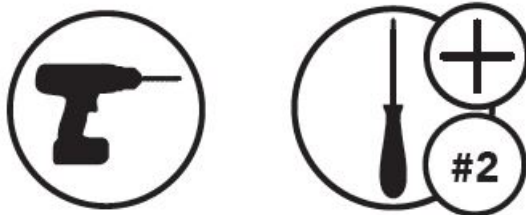

1. Remove the inner slide piece from your Closet basket slide assembly by pressing the release trigger.
2. Lay both brackets on one side and attach the inner slide member to the brackets using the provided machine screws.
3. Determine the appropriate mounting location for your slides based on the depth of your closet.
4. Once both inner slide members are attached to both sides, attach the brackets to the underside of your shelf using the provided (4) wood screws.
5. After attaching the brackets, carefully reengage your slides and attach your closet basket.

Product Code: I-CTI-MCTBM-0B9-206214

PARTS LIST

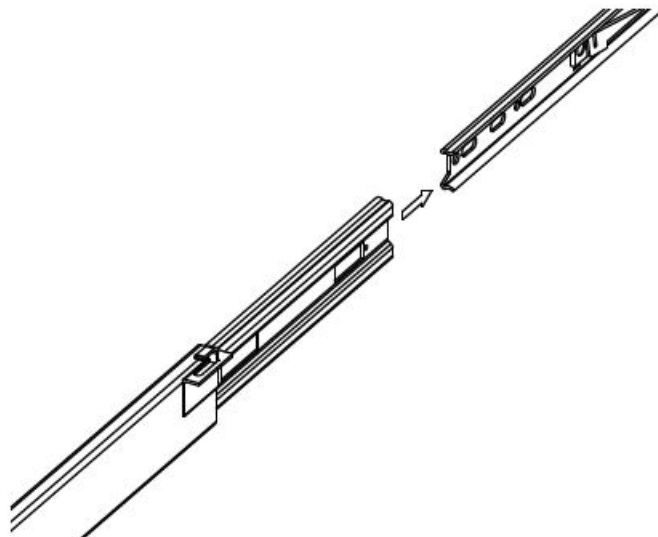

TOOLS REQUIRED

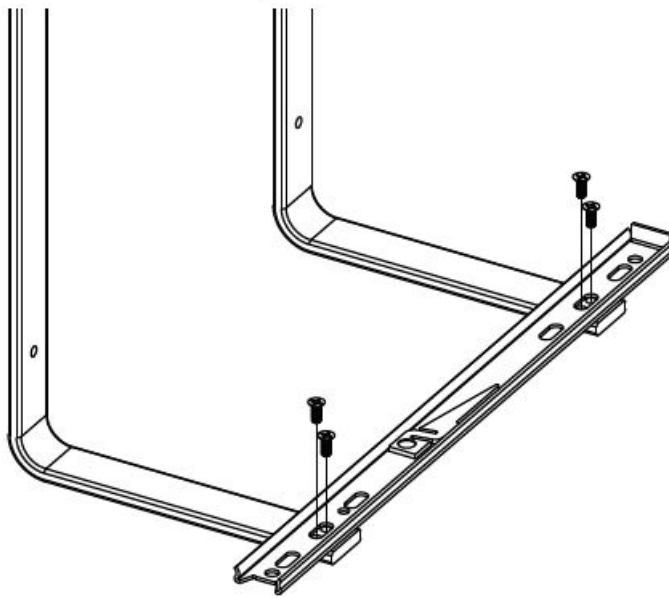

Note: This kit will only work with Rev-A-Shelf Closet baskets.

Installation Instructions

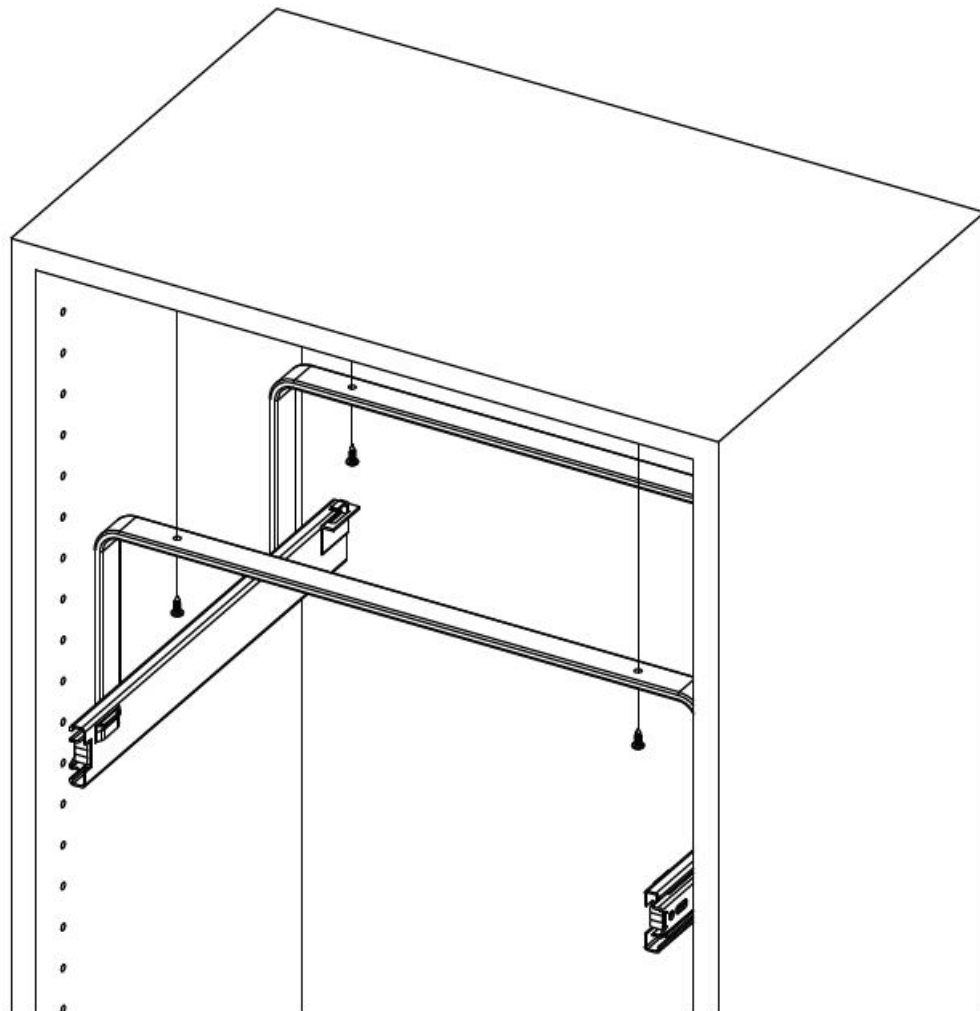

1. You will need to remove the inner slide piece from your Closet basket slide assembly by pressing the release trigger.

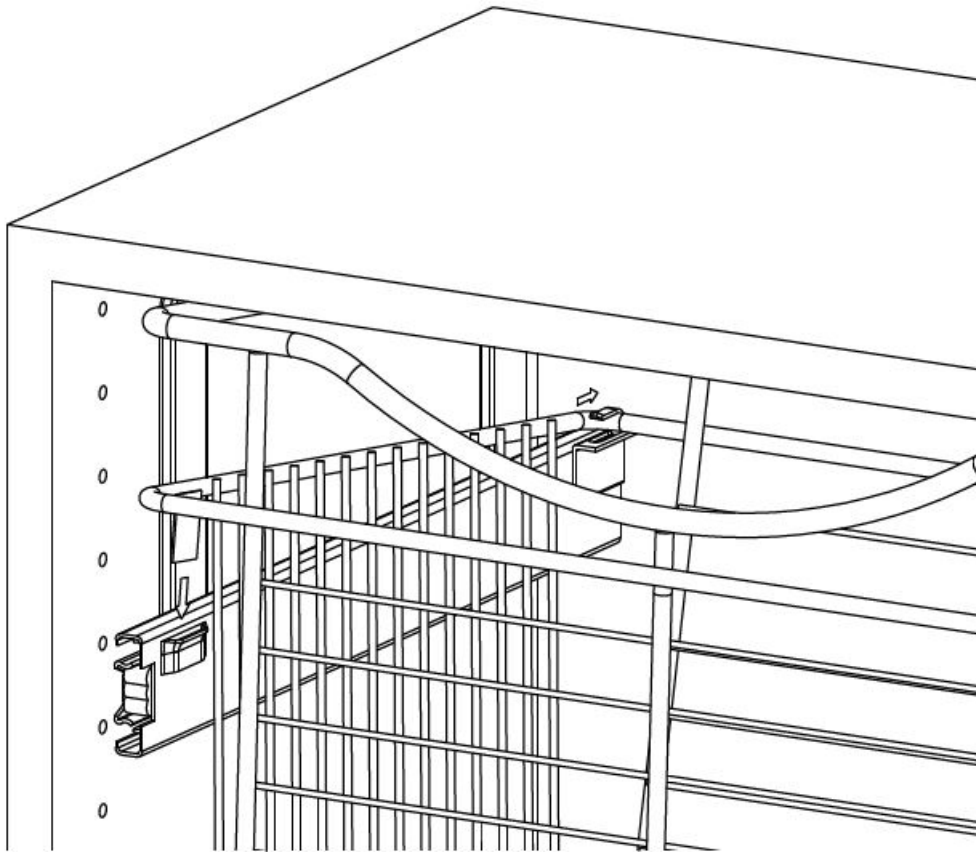

2. Lay both brackets on one side and attach the inner slide member to the brackets using the provided machine screws. Depending on your depth of closet will determine where your slides are mounted.

3. Once both inner slides member are attached to both sides you are now ready to attach the brackets to the underside of your shelf using the provided (4) wood screws.

4. Once attached, you can very carefully reengage your slides and attach your closet basket.
