10	Warranty card	1	Copy	

You can retrieve product supporting documents at <https://www.ruijienetworks.com>. Click Support> Technical Documents, and download the documents you need.

Installation and Networking

The RG-NBS3100-24GT4SFP switches follow the EIA standard dimensions and can be installed in 19-inch rack. The steps of Installation are as follows:

1. Take out two L-shape mounting brackets and six M4x8 FMO countersunk head screws
2. Attach the mounting brackets to both sides of the switch closely and fix it with three M4x8 FMO countersunk head screws

Networking

Method 1 (recommended)

Scan the QR-code on the manual or device to download Ruijie Reyee App. Follow the guide on App to set up and configure the network.

<http://rj.link/e/>

Method 2

Connect the cable to the device port and access <http://10.44.77.200> to perform configuration.

Port Information

Note:

1. System status LED
2. Reset button
