### Richard 15802 Two Part Screw System

## FAQs

- **Q: How do I know which leveling caps to use?**

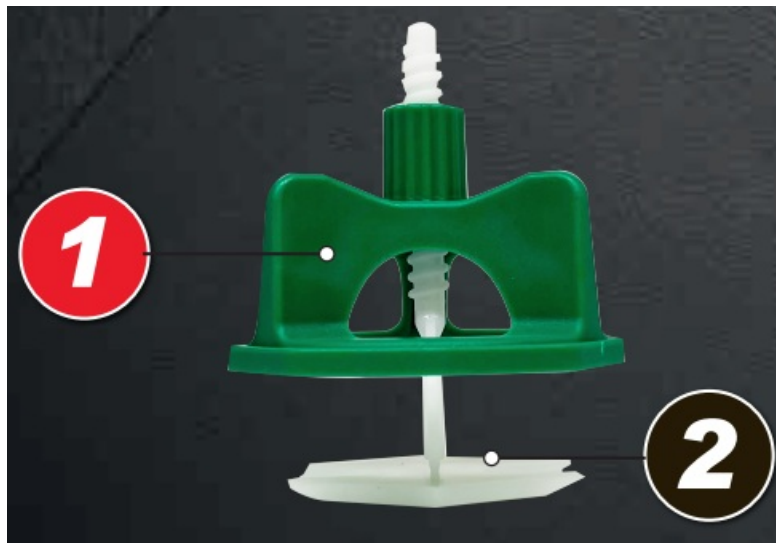

- A: The leveling caps should be selected based on the thickness and size of your tiles. Refer to the product manual for guidance or consult with a professional if unsure.

- **Q: Can I reuse the strips for multiple tile installations?**

- A: It is recommended to use new strips for each tile installation to ensure proper leveling and alignment.

## TWO-PART SCREW SYSTEM

1. No pliers needed
2. Less complex system, easier to use

## USEING

1. Slide two strips under the tile and into the mortar. Place the second tile.

2. Add leveling caps to adjust the two tile evenly.

3. Once the mortar sets, strike the strips, forcing them to snap off at the breakpoints.

- Follow the recommendations of the adhesive manufacturer for selecting the right tool

Richard #	UPC #	DESCRIPTION
15801	066395158016	Tile leveling caps, screw system (box of 100) Capuchons de nivellement (boite de 100)
