Using the AFP2PDF Plus Transform

- Installing the AFP2PDF Plus Transform using the graphic user interface
- Installing AFP2PDF Plus Transform from command line

This chapter explains how to install the transform for the first time

Installing the AFP2PDF Plus Transform using the graphic user interface

To run the transform, perform these steps:

1. Use the following commands

Full Version

```
java -jar setupafp2pdfPlus_.jar
```

Trial Version

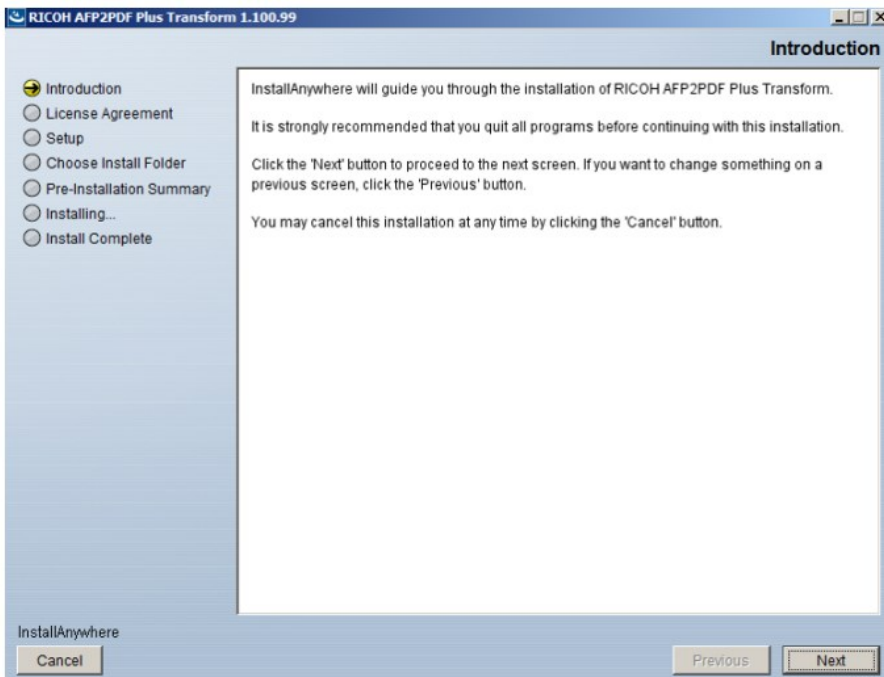

```
java -jar setupafp2pdfPlus__Trial.jar
```

Note

- Make sure to copy the following certificate files into the installation directory:
 - AFP2PDF.cer
 - AFP2PDF.pk
 - AFP2PDF.sig

Depending on the capabilities of your operating system, the AFP2PDF Plus transform opens either using a graphical user interface or a command line

1. On the Welcome screen, click Next to continue the installation process of the transform.

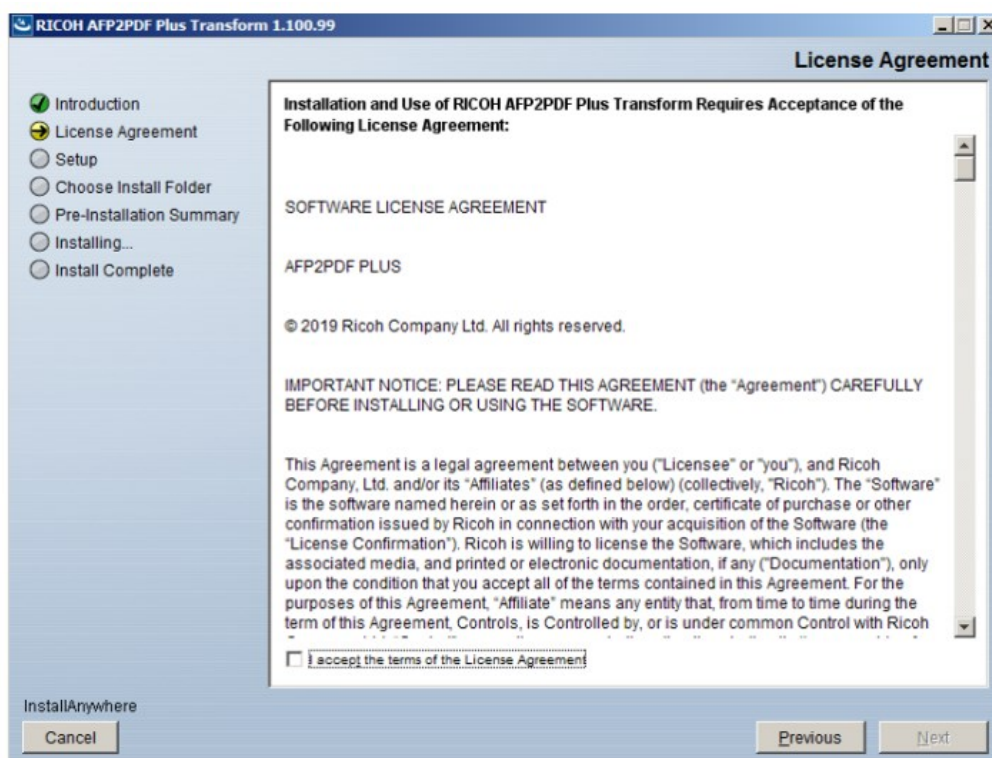

Note

- To stop the installation process of the transform, click **Cancel**.

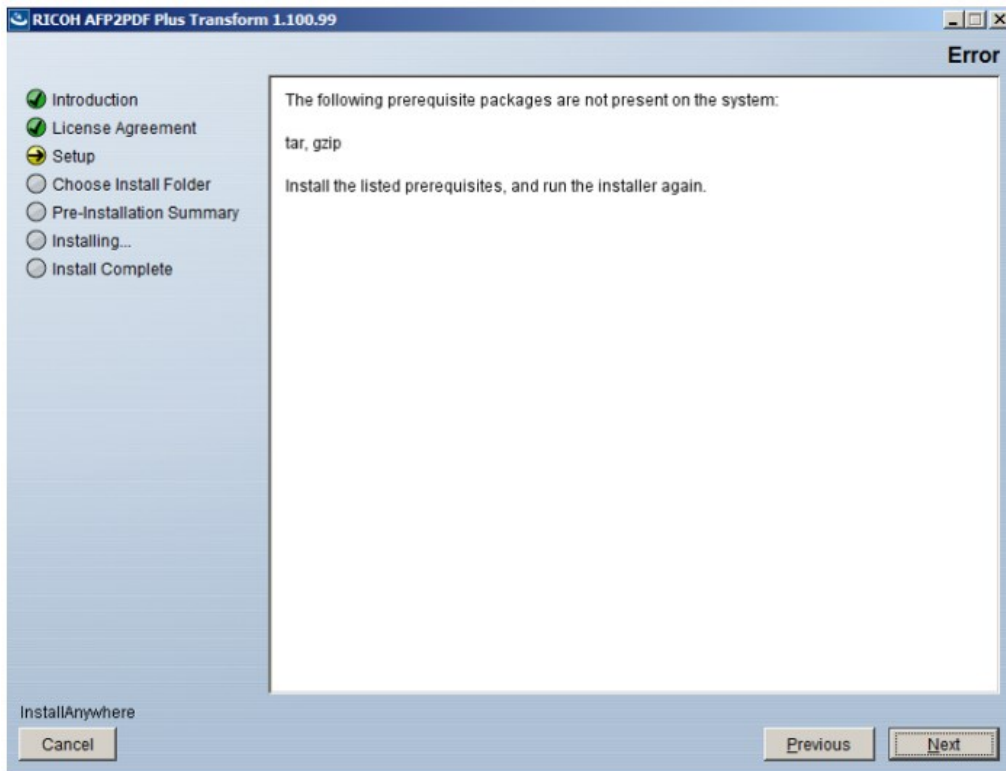

2. In the License Agreement dialog box:
 1. Read the license agreement.
 2. Click I accept the terms of the license agreement.
 3. Click Next.

Note

If you do not accept the terms of the license agreement, you cannot continue the installation.

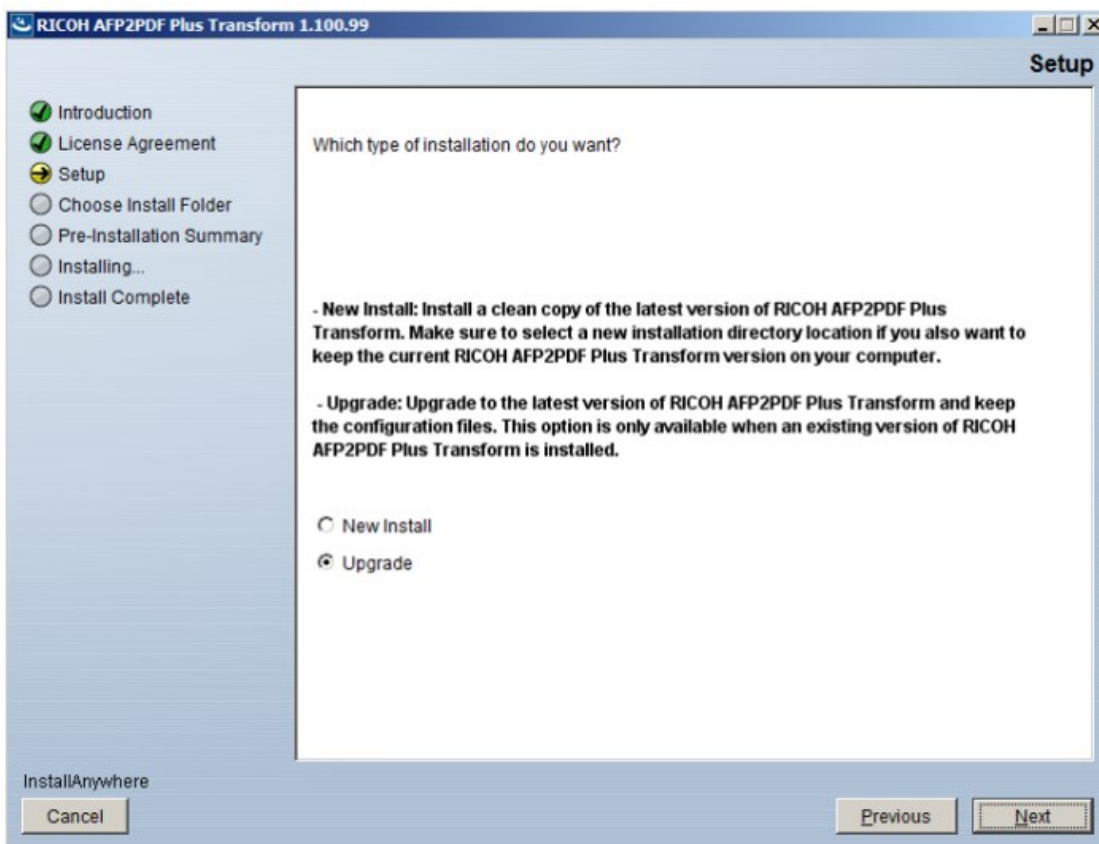

3. Check the prerequisites list.

Note

- This step applies only when you install the transform on a UNIX based operating system.

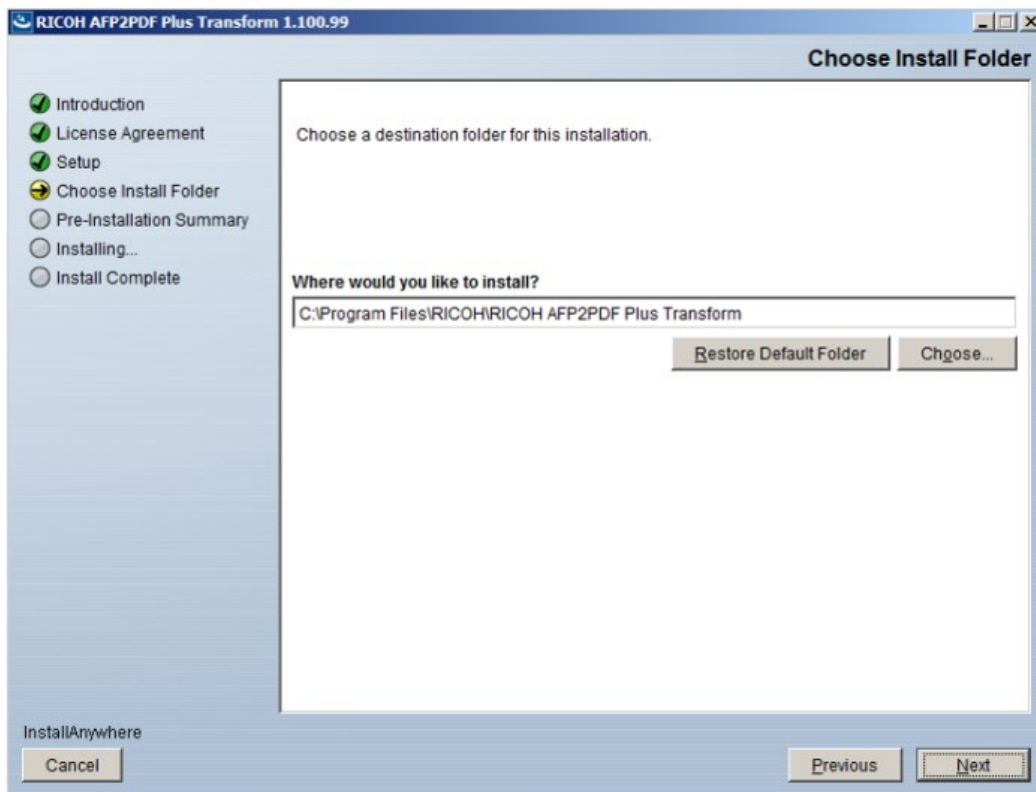

4. Choose the installation type dialog box.

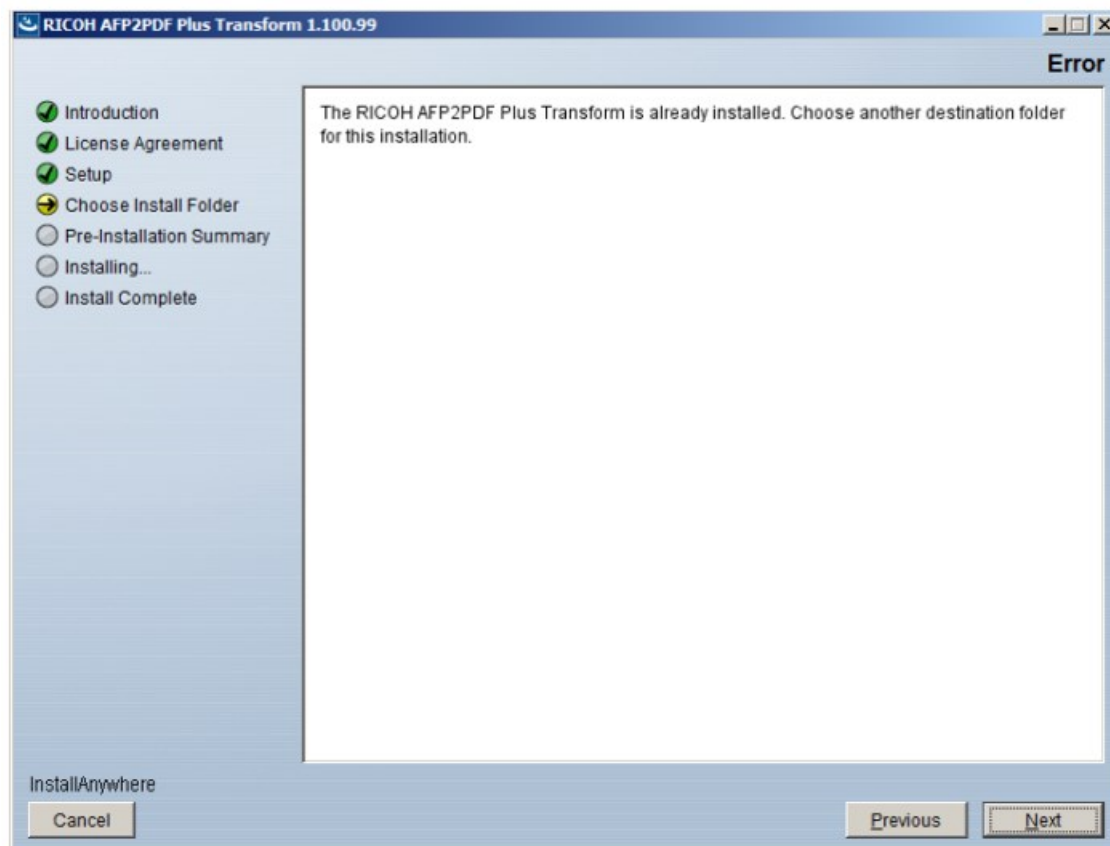

New Install

1. Select New Install for a clean installation of the transform.

2. Click Next to continue the installation process and browse the destination folder for the installation of the transform.

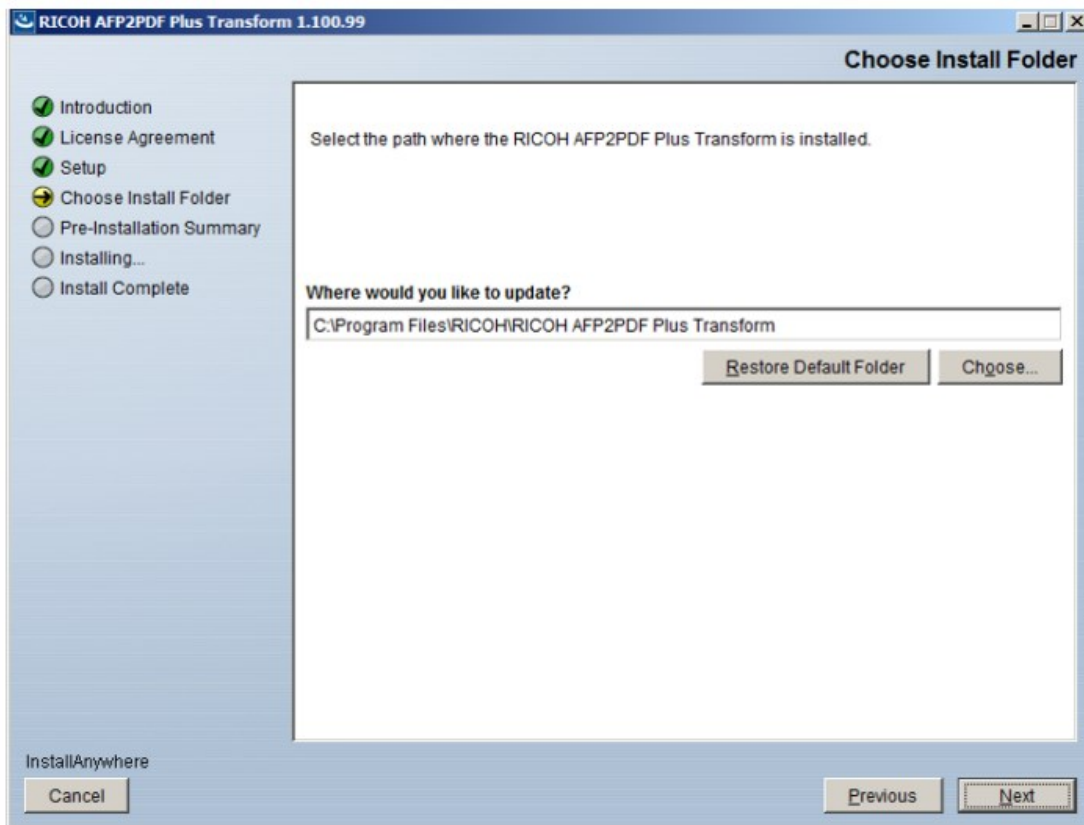

3. If the product is already installed in the selected folder, choose another destination folder.

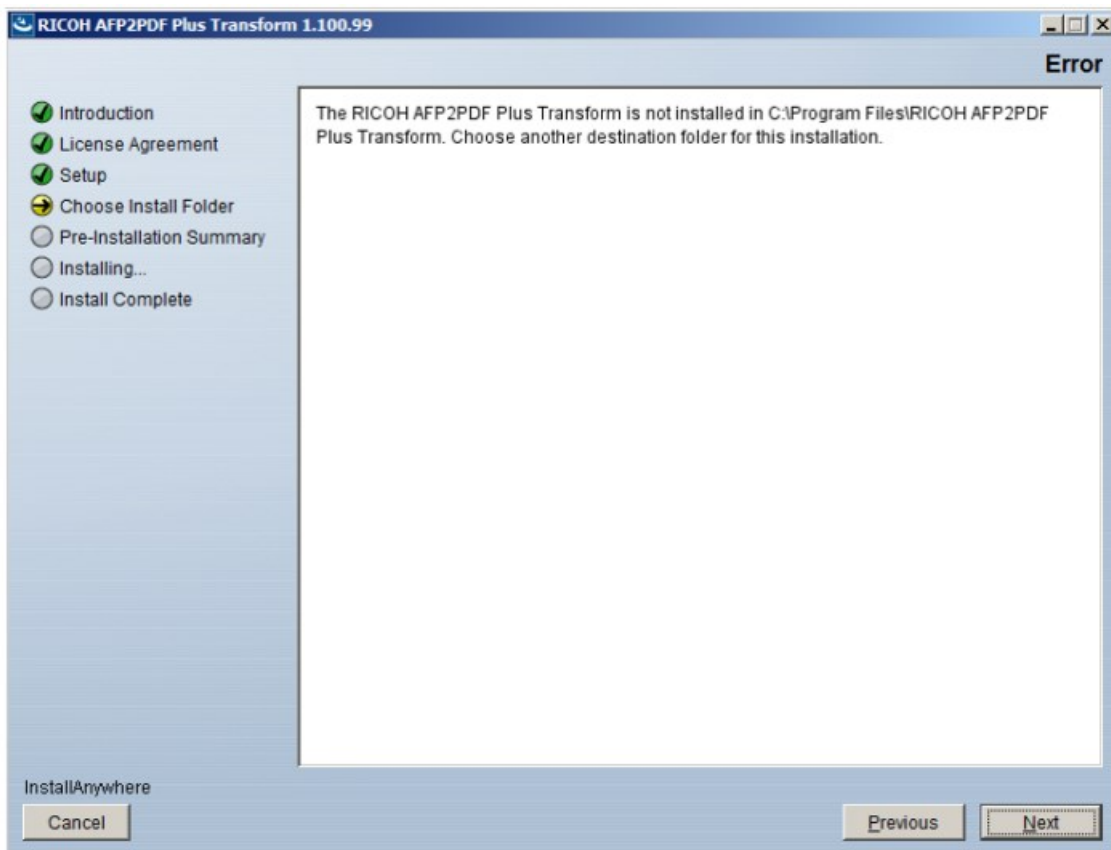

Upgrade

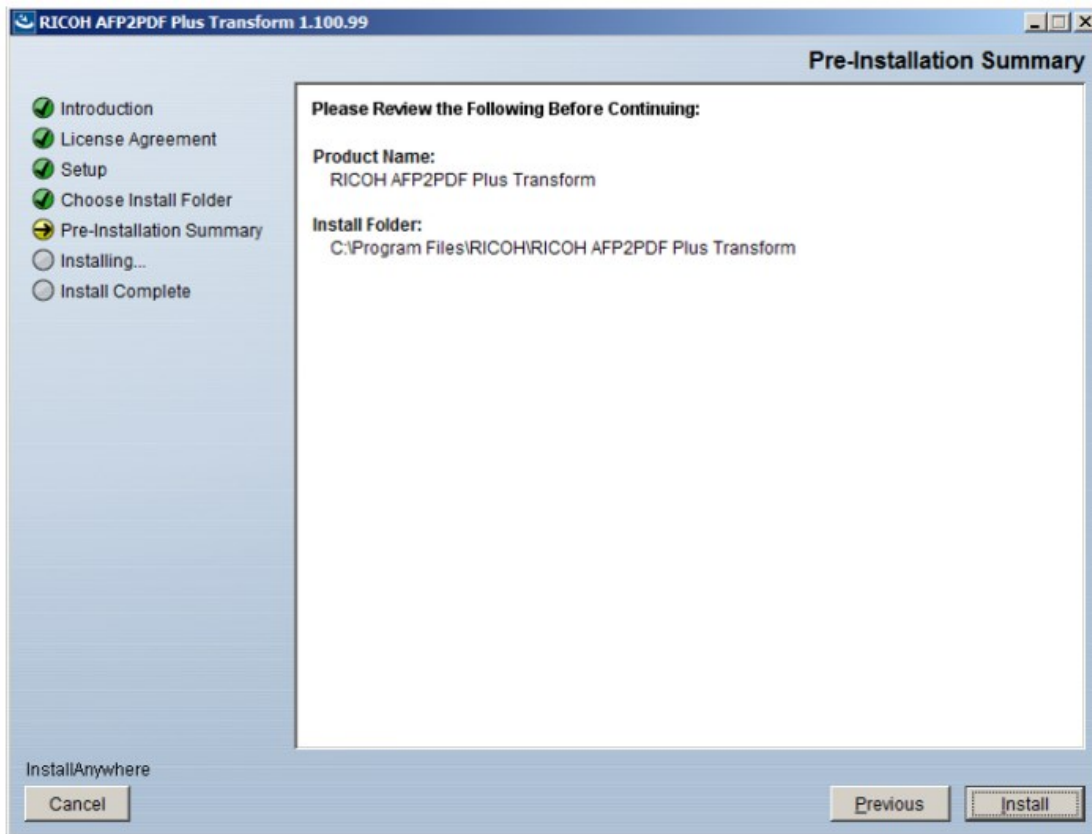

1. Select Upgrade to upgrade to the latest version of the transform.
2. Click Next to continue the installation process and browse the path for the update of the transform

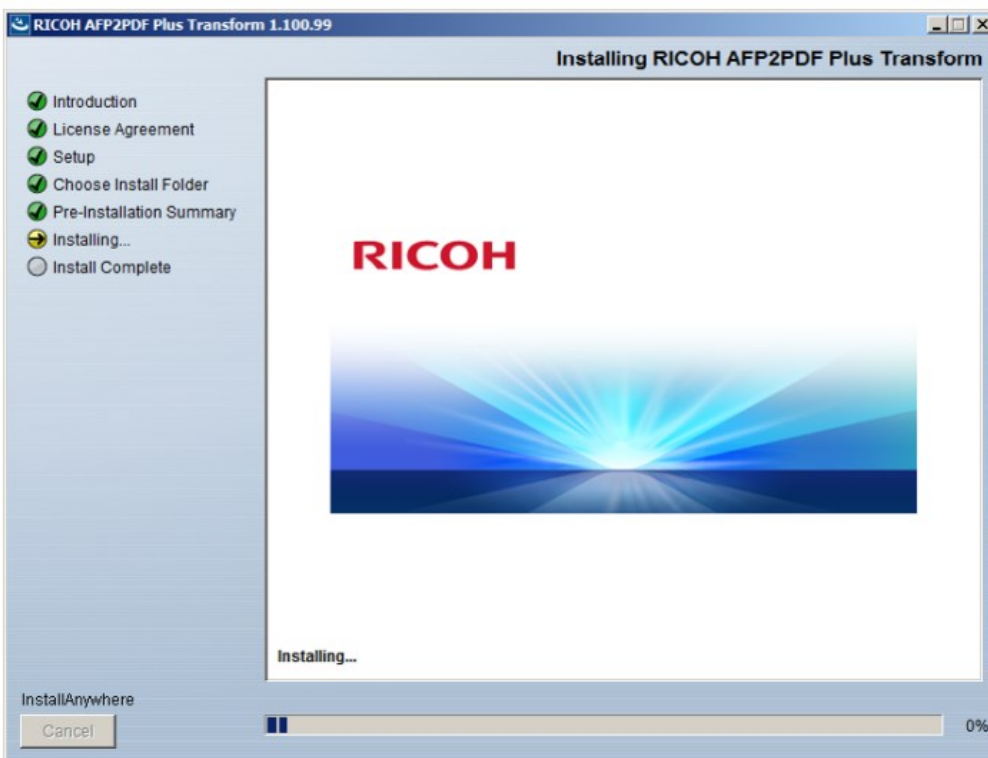

3. If the product is not installed in the selected folder, choose another destination folder.

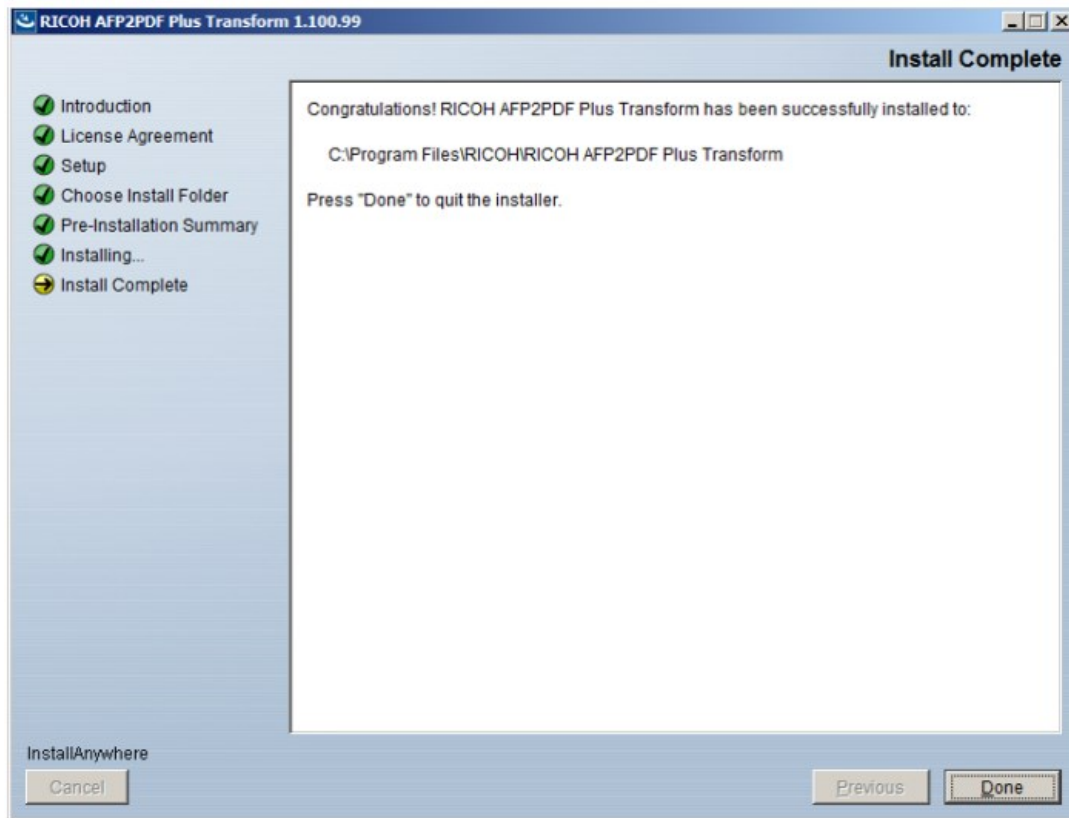

The pre-installation summary panel appears just before the installation can begin. This shows what you have chosen to install and the location. To complete the installation process, click Install.

The installing dialog is displayed to show the installation status

Click Done to close the installer

Installing AFP2PDF Plus Transform from command line

To start the command line installer, perform these steps:

1. Open a command prompt.
2. Run the following command: `java -jar setupafp2pdfPlus_.jar` to start the graphic user interface installation.

Note

- You can force the command line installation of the transform by adding the **-i console** parameter:

`java -jar setupafp2pdfPlus_.jar -i console.`

3. Follow the installation instructions. The steps are similar as in the graphical installer.

See the AFP2PDF Plus Transform Command chapter from the AFP2PDF Plus Transform User's Guide, Version 1.300 for more information.
