RICOH GR III HDF, GR IIIx HDF Diffusion FIlter

Specifications

- **Model:** RICOH GR III HDF (R02010), RICOH GR IIIx HDF (R05010)
- Built-in Highlight Diffusion Filter (HDF)
- Diffuses light and reduces screen contrast
- ND filter not installed also shown in playback mode for images taken with HDF ON.

The RICOH GR III HDF and RICOH GR IIIx HDF have a built-in "Highlight Diffusion Filter" (HDF) that diffuses light and reducing the contrast of the entire screen.
The "ND filter" built into the standard model is not installed.

Button Name and Function

"HDF" is printed on the upper side near the Fn button (h) on the back of the camera.

ADJ

Setting from the Menu

The HDF can be turned ON and OFF in [HDF] of the 4 menu. (Default setting: OFF)

4 Shooting Settings

|	
Still/Movie	
Snap Distance Priority	
Macro Mode	
Drive Mode	
AA Filter Simulator	
HDF	>
File Format	JPEG

[HDF] is supported by [Memory] of the D2 menu. The [HDF] setting is retained even after the camera is turned OFF and back ON.
If you do not want the setting to be retained when the camera is turned OFF, change the [Memory] setting. For more information on [Memory], refer to the FAQ page on the Ricoh website.

Setting with the Fn Button

The HDF can be turned ON by pressing FN h in the shooting mode. It is turned OFF when FN is pressed again. (Default setting: OFF)
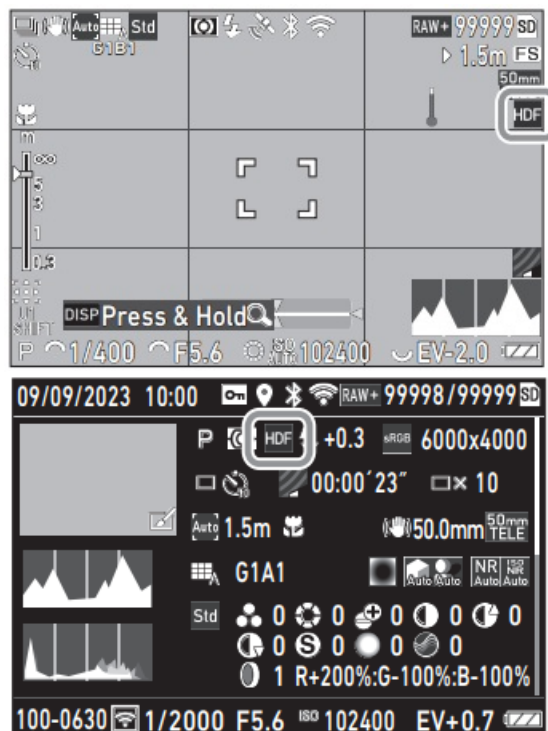

The function of FN can be changed in [Fn Button Setting] of the C2 menu. [HDF] is set by default.

Display on the Monitor
The HDF icon is displayed when the HDF is ON in the shooting mode.

For images shot with the HDF set to ON, the HDF icon is displayed in the detailed information display in the playback mode.

FAQ

- **Q: How do I enable the HDF setting?**
  - **A:** You can enable HDF by accessing the A4 menu and turning on the [HDF] setting. Press the h button in shooting mode to activate HDF.
- **Q: Can I change the HDF setting retention behavior?**
  - **A:** Yes, you can adjust the [Memory] setting in the D2 menu to control HDF setting retention upon power cycle.
- **Q: Where can I find more information about HDF and other settings?**
  - **A:** For additional information, refer to the FAQ page on the Ricoh website: **RicohSupport**
