Shooting button

- After installing a fully charged battery, the remote control can enter working mode and sleep to save power.
- Press the shooting button to take photos wirelessly (ii needs to be paired with our wireless camera handle).

Product Size

- **Unit:** mm
- **Tolerance:** $\pm 1.0\text{mm}$
- **L=**33
- **W=**6.8
- **H=**80

Technical Specifications

Serial Number	Item	Specifications
1	Scope of application	This product is suitable for all SLR camera handles in our RC series
2	Input voltage	3V
3	Battery type	One CR2032 button battery
4	Control mode	2.4G Wireless remote control (only effective for our RC series controllers)
5	Control function	Take picture
6	Radiofrequency	2432MHz
7	Power	0dBm
8	Remote control distance	About 40 meters (open area)
9	Body material	Plastic cement
10	Net weight	15.8g
11	Ambient Temperature	0°t-40°t
12	Storage temperature	-10°C-50°t
13	Relative temperature	20%-90%

Matters Needing Attention

1. Please use the battery specified in the product specifications, otherwise it may cause the product to not turn on or be damaged.
2. This product does not have waterproof function.
3. The product belongs to precision instruments, please do not let it fall to the ground, be hit or be strongly impacted.
4. When the remote control is not sensitive or malfunctioning, please try replacing the battery.

Specifications and design are subject to change without notice.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference
2. This device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
