RINGCHAN RC-E700 Wireless Receiving and Calling System

## User manual for RC-E700

### Specifications

- Product Model: RC-E700
- FCC Compliance: Part 15
- RF Exposure: General exposure requirement met
- Portable Use: Can be used in portable exposure condition without restriction

### Product Usage Instructions

#### FCC Compliance

The RC-E700 complies with part 15 of the FCC rules, ensuring that the device operates within specified limits to minimize interference.

#### General RF Exposure Requirement

The device has been evaluated to meet general RF exposure requirements, providing a safe level of exposure during normal use.

#### Portable Use

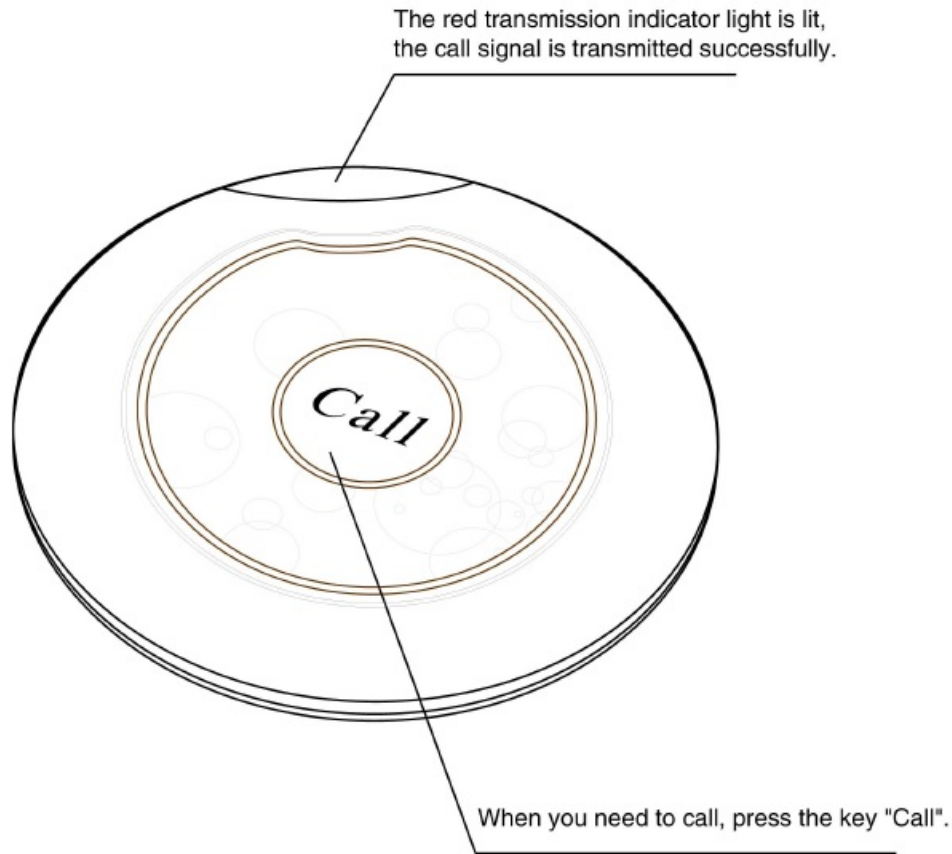

As per FCC guidelines, the RC-E700 can be used in portable exposure conditions without any restrictions. Ensure proper handling and usage while in portable mode.

#### Frequently Asked Questions (FAQ)

##### Q: Can the RC-E700 be used in areas with high interference?

A: The device is designed to accept interference and operate effectively even in areas with high interference levels, as long as it does not cause harmful interference to other devices.

## FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
