Product Usage Instructions

- Select the appropriate Midi Cobra Rodding System based on the required diameter and length of the rod.
- Attach the desired end fitting to the rod, choosing from brass guide tip, spring, or roller.
- Insert the rod into the duct, pipe, or drain that needs to be surveyed or have cables installed.
- Use the safety brake to control the speed and prevent the rod from running away.
- When finished, remove the rod and end fitting and store them in a safe place.
- If any components require maintenance or repair, refer to the user manual or contact Ritelite for assistance.
